storia history

La Vetreria di Borgonovo fu fondata nel 1950. A quel tempo, tre soci, Francesco Piccioni, Icilio Cantoni e il mastro vetraio toscano Mario Marzini decidono di iniziare la produzione di prodotti in vetro per uso casalingo. Ebbe inizio, così, una produzione completamente manuale in uno stabilimento di circa 2000 metri quadri. L'azienda si sviluppò rapidamente, ebbe un buon successo di mercato ed arrivò ad impiegare 700 dipendenti. A cavallo tra anni '50 e '60, la produzione passò progressivamente da manuale a semiautomatica, fino alla completa automazione, grazie anche ad un considerevole sforzo finanziario. L'azienda arrivò a produrre un'ampia gamma di articoli per la casa: bicchieri, brocche, posacenere, tazze da birra e contenitori per la conservazione. Nel 1987, Francesco Piccioni decise di rilevare le quote degli altri soci e di proseguire l'avventura da solo. Negli anni '90, gli investimenti in attrezzature industriali (con i vari ampliamenti e con l'acquisto di Decover, la superficie coperta dello stabilimento passa dai 12.000 agli attuali 52.000 mq.) e in sviluppo del know-how, hanno portato Vetreria di Borgonovo ad una fase di sviluppo molto veloce, ed a raddoppiare la produzione nel giro di 3 anni. Si è infatti dato corso ad un ammodernamento dello stabilimento ed alla riqualificazione del personale. Pur sviluppando una produzione su vasta scala, l'azienda mantiene, ai giorni nostri, un alto standard qualitativo, per andare incontro alle esigenze ed ai gusti dei suoi clienti.

The Company was founded in 1950 by three partners. Francesco Piccioni, Icilio Cantoni and the Tuscan glass master Mario Marzini to produce glassware for domestic use. A wholly manual production was started in a plant of around 2000 square meters. The Company grew quickly, enjoying good success in the market and soon came to employ some 700 workers. Between the mid Fifties and Sixties and as a result of a large financial investment, the production system was transformed from manual to semi-automatic and later on to a complete fully automatic system. The Company was by now producing a very large range of products for domestic use such as glasses, tumblers, jugs, beer mugs, storage jars etc. In 1987 F. Piccioni acquired the share holding of his other partners and became sole proprietor. During the Nineties the company embarked on a new phase of investment in the latest industrial equipment and acquired the company Decover. The surface of the plant thereby increased from 12,000 square meters to the current 52,000 square meters. These developments together with the know-how of modern technologies enabled Vetreria di Borgonovo to grow rapidly and in a short period of some three years the production output was doubled. The company is constantly in a process of updating all parts of production and the training of personnel. Despite the large scale of production Borgonovo has always sought to maintain a high standard of quality in order to meet and satisfy the demands of its customers.

TECNOLOGIA

L'area produttiva si avvale di due modernissimi forni di fusione, uno da 110 e l'altro da 60 tonnellate giornaliere (max) di vetro cavato, che alimentano nove linee produttive. La fabbrica produce 45000 tonnellate di vetro all'anno, distribuite su 130 milioni di pezzi e su 500 differenti forme, utilizzando un unico tipo di vetro, extra-bianco senza piombo, derivato dalla fusione di sabbia silicea con aggiunta di fondenti, decoloranti e affinati. Il vetro prodotto risponde completamente alle normative europee ed alle procedure per il rispetto dell'ambiente. Il vetro utilizzato nel processo produttivo è di tipo extra-bianco (senza piombo), il prodotto viene modellato mediante fasi di pressatura, presso-soffiatura.

PRODOTTI

Gran parte della progettazione e produzione degli articoli di Vetreria di Borgonovo viene concepita ed effettuata tenendo ben presenti le esigenze del canale Ho.Re.Ca. (Hotels, Restaurants & Catering). Una notevole resistenza, sia meccanica, sia ai molteplici lavaggi, uniti ad una costante ricerca di forme pratiche ed eleganti, sono le peculiarità che contraddistinguono i prodotti Borgonovo.

PRESENTE ED IMMEDIATO FUTURO

Vetreria di Borgonovo continua con la politica degli investimenti e dell'innovazione tecnologica. Dopo l'ingente sforzo del 2007, quando fu avviata la prima linea per la produzione di vetro soffiato, l'Azienda, preso atto delle tendenze di mercato, ha installato, nel giugno 2010, un'ulteriore linea produttiva dedicata a questa tipologia di articoli. Questo dovrebbe consentire sia consegne più puntuali degli articoli già esistenti, sia un più rapido sviluppo di nuove linee di articoli. L'obiettivo è quello di offrire una gamma di prodotti sempre più ampia, ad un mercato in espansione, ma anche molto competitivo.

IMPEGNO AMBIENTALE

La Vetreria di Borgonovo è da sempre sensibile alle problematiche ambientali. Seguendo questa linea guida, all'inizio del 2011, l'Azienda ha installato, sui tetti dei propri magazzini, un impianto fotovoltaico per la produzione di energia pulita. Forte di una esposizione di 8000 metri quadri di pannelli solari, questa vera e propria centrale elettrica, della potenza di 966 kW, è in grado di produrre oltre 1,1 GWh/anno. interamente utilizzato per l'attività produttiva.

CERTIFICAZIONI

In un'ottica di miglioramento continuo della Qualità di Processo e con grande attenzione verso le tematiche ambientali, l'Azienda ha di recente conseguito le certificazioni ISO 9001 e ISO 14001, a cura di un prestigioso Ente Certificatore europeo.

L'Azienda, inoltre, mantiene una certificazione metrologica dei propri prodotti recanti linea di stazza, secondo la Direttiva 2004/22 CE del Parlamento Europeo e del Consiglio del 31/03/2004, detta MID.

TECNOLOGIA

The production area has two very modern kilns. One with a capacity of producing 110 tons of glass per day and the other some 60 tons. These two kilns feed nine production lines. The factory produces around 45,000 tons of glass per year. This equates to some 130 million pieces per year spread over 500 different shapes and sizes. The entire production is manufactured using one type of glass which is obtained from the fusion of siliceous sand with the addition of fluxes, bleaches and refiners. The glass produced fully responds to new European laws and to the procedures for the respect of the environment. The glass is of extra white sodic-calcic type (lead free) and the products are created through phases of pressing and press-blowing.

PRODUCTS

The majority of the production of Vetreria di Borgonovo is conceived and manufactured to meet the requirements of the Ho.Re.Ca. segment. The main characteristics of Borgonovo products is their strength to withstand daily and constant usage of many months and years and also of course washing cycles.

PRESENT AND IMMEDIATE FUTURE

Vetreria di Borgonovo is continuing with the policy of investments and technological innovation. After the 2007 considerable effort, when the first blown-glass production line was installed, the Company, being aware of the market trends, has acquired, in June 2010, a new one, to implement the same category of items. This investment should allow the Company both more punctual deliveries of existing items and a quicker development of new lines. The aim is to offer a wider range of articles to an expanding and very competitive segment of glassware market.

ENVIRONMENTAL COMMITMENT

Vetreria di Borgonovo has always been sensitive towards environmental issues. Following this guideline, since the beginning of 2011, the Company has installed on the roof of his warehouses, a photovoltaic plant for the production of clean energy. With a significant exposure of 8000 square meters of solar panels, this is an authentic power station, with the power of 966 kW, and it can produce more than 1,1 GWh/ per year. The energy produced is totally used for the production process.

CERTIFICATIONS

With the aspiration to a continuous improvement of the Process Quality and paying serious attention to environmental issues, The Company has recently been certified ISO 9001 and ISO 14001 by an eminent European Auditor.

Moreover, The Company maintains the metrological certification of its items with gauge level, according to the European Directive 2004/22/CE (MID).

Marchio Borgoforte

Il marchio Borgoforte individua quei prodotti, all'interno della gamma Borgonovo, che hanno una particolare resistenza meccanica nei punti solitamente deboli per i prodotti in vetro: bordo bocca, stelo e disco del piede. Con particolare riferimento ai calici, le valutazioni si basano su parametri oggettivi (es. una resistenza del gambo a 2,6 Joule di forza d'urto) testati sia presso il laboratorio interno delegato al controllo qualità, sia presso laboratori esterni. Questi risultati sono ottenuti grazie al nostro particolare processo produttivo, che prevede la formatura dell'intero calice senza che vi sia soluzione di continuità tra parison, stelo e disco del piede. In questo modo si ottiene un prodotto monolitico, privo di punti critici ove si concentra la tensione. Di conseguenza, a parità di energia applicata, i nostri calici resistono maggiormente ad urti e sollecitazioni sul bordo bocca e sul piede. Prove condotte alla Stazione Sperimentale del Vetro di Murano, con l'ausilio di particolari attrezzature e specifici modelli matematici, hanno dimostrato che, la frequenza di rotture dei nostri calici è inferiore di circa il 30% rispetto al prodotto ottenuto con tecniche tradizionali. In base a queste caratteristiche, i prodotti Borgoforte si propongono, quindi, agli operatori del settore Hospitality, come strumento di lavoro pratico, affidabile e di lunga durata.

Brand Borgoforte

The brand Borgoforte identifies those products, within the Borgonovo range, characterized by a particular mechanical resistance in the glassware's usual weak positions: rim, stem and foot disc. Referring to the goblets, the evaluations are based on objective bench marks (i.e. the stem is laboratory tested to withstand pressure up to 2,6 joule). The products are tested both at the internal Quality Control Laboratory and at external laboratories. These results are achieved through our manufacturing process by producing the complete goblet in one forming process only. In this way, we obtain a monolithic product, without critical positions where the glass stresses are usually located. Consequently, our stemware resists more to shocks and stresses both on the rim and on the foot. The Glass Experimental Laboratory in Murano, has been commissioned by us, for a huge range of tests. Using proper toolings and mathematical models, those tests have demonstrated that the frequency of breakages in our stemware is 30% less than in the products manufactured with the traditional forming process. Basing on all these arguments, the Borgoforte products offer themselves to the operators of the Hospitality sector, as practical, reliable and long-lasting work tools.

Artwork

Con la convinzione che l'immagine valorizzi il prodotto, da più di 30 anni DECOVER opera nel settore delle decorazioni ed è al servizio della propria clientela per dare risalto ed eleganza al vetro in tutte le sue forme.

DECOVER risponde alle esigenze di un mercato in continua espansione, dal '95 si è specializzata in serigrafia su contenitori sviluppando una produzione su vasta scala pur mantenendo elevati standard qualitativi.

DECOVER, grazie alle capacità di personale altamente qualificato, unisce la tradizione artigiana alle più avanzate tecnologie mantenendo il processo produttivo costantemente sotto controllo al fine di garantire il miglior servizio, confermandosi una società leader nel settore.

La grande capienza dei magazzini (15.000 mq coperti) consente a DECOVER di avere un'elevata disponibilità di prodotto finito, garantendo al cliente un rapido ed efficace servizio di consegna.

TECNOLOGIA

L'area produttiva si avvale di nove macchine automatiche e quattro forni di ricottura.

DECOVER produce 30 milioni di pezzi all'anno.

Le decorazioni rispondono alle normative europee e alle procedure per il rispetto dell'ambiente.

CERTIFICAZIONI

In un'ottica di miglioramento continuo della Qualità di Processo e con grande attenzione verso le tematiche ambientali, l'Azienda ha di recente conseguito le certificazioni ISO 9001 e ISO 14001, a cura di un prestigioso Ente Certificatore Europeo.

L'Azienda, inoltre, mantiene una certificazione metrologica dei propri prodotti recanti linea di stazza, secondo la Direttiva 2014/32 UE del Parlamento Europeo e del Consiglio del 26/02/2014, detta MID.

Strongly believing that image can boost a product, DECOVER has been operating for over 30 years in the field of decorations and has always been committed to serving its customers so as to enhance and to bring out the elegance of glass in all its shapes.

DECOVER meets the requirements of a market that is constantly growing; in 1995, it specialised in silk-screen printing on containers, developing a massive production and yet keeping high quality standards. DECOVER, thanks to the abilities of highly skilled staff, combines craftsmen tradition with leading-edge technology; it constantly keeps the manufacturing process under control in order to ensure the best service, thus strengthening its position as a leading company in its field.

The huge capacity of its stores (15.000 covered sq.m) makes it possible for DECOVER to keep a large stock of finished products, proving customers with a quick and efficient delivery service.

TECHNOLOGY

The production area has nine automatic machines and four annealing kilns.

DECOVER produces 30 million pieces per year.

Decorations fully responds to the new european laws and to the procedures for the respect of the environment.

CERTIFICATIONS

With the aspiration to a continuous improvement of the Process Quality and paying serious attention to environmental issues, the Company has recently been certified ISO 9001 and ISO 14001 by an eminent european Auditor.

Moreover, the Company maintain the metrological certification of its items with gauge level, according to the European Directive 2014/32/UE (MID).

Artwork COLLECTIONS

Questa sezione del catalogo Decover vuole essere la naturale evoluzione dei cataloghi "artwork" degli scorsi anni. Contiene nuove proposte di decoro che potrebbero diventare una intera collezione adattata ai nostri prodotti abituali, sono presentate in una nuova immagine virtuale che ne coglie l'essenza e la personalità per stimolare nuove soluzioni sempre all'avanguardia.

This section of Decover catalogue is meant to be the natural evolution of the "artwork" catalogues of the last few years. It contains brand new proposals of decoration that could become an entire collection adapted to our usual products.

The new design are presented in a new virtual image that captures the essence and personality to stimulate new solutions always looking ahead.

Artwork HYGGE

Oggi come non mai attuale, in un contesto di rivoluzione ecologica, i simboli grafici ispirati al tema vegetale ci ricordano il nostro ambiente originale; la ripetizione verticale simboleggia la crescita, l'alternanza dei colori grigio e verde la stagionalità. La forma stilizzata, minimalista e riconoscibile della foglia ci riporta ai concetti di armonia e semplicità.

Today as never before, with the green revolution scenario as a background, these graphic symbols inspired by the botanical theme remind us of our original environment; the vertical leaves sequence symbolizes growth, the grey and green colors succession symbolizes seasonality. The stylised, minimalist and recognizable shape of the leaf recall us to the concepts of harmony and simplicity.

BRUSH *Artwork*

Monocromatico, ispirato ai graffiti, il nome del decoro celebra i writers che artisticamente "imbrattano" i muri delle città. Questa grafica quasi pennellata sembra avere già un vissuto importante, come quelle prime scritte in nero che comparvero anni fa e furono l'anticipazione del movimento del graffitismo e dell'arte urbana. Il disegno ricorda lo schizzo di una mappa cittadina a sottolinearne l'origine.

Monochromatic, urban graffiti inspired, the name of this artwork celebrates the writers who daub graffiti on the public walls. This graphic with its brushstroke effect seems to have a relevant past, like those earliest writings that appeared years ago and which were the announcement of the graffiti and urban street art movement. The artwork vaguely recalls to the sketch of a city map to emphasise its origin.

Bicchieri in foto a scopo illustrativo: Brera: DOF 355
Glass for illustrative purposes: Brera DOF 355

Artwork CAIRO

Il nome del decoro non lascia dubbi sull'ispirazione di questo artwork geometrico, la forma triangolare rimanda agli inconfondibili monumenti e i colori rimandano alla natura del territorio in cui si erigono, il segno grafico e la ripetitività lineare stanno a simboleggiare l'antichità e la forza del segno geroglifico della composizione.

The name of this pattern leaves no doubt about the inspiration of this geometric artwork, the triangular shape clearly refers to the unique monuments and the colors refer to the landscape in which they are located, the graphic sign and the linear repetitiveness symbolize the antique and the power of the hieroglyphic symbols of this composition.

Bicchiere in foto a scopo illustrativo: Brera: DOF 355
Glass for illustrative purposes: Brera DOF 355

EUCALIPTO *Artwork*

Ecco un altro motivo ispirato alla natura, dove le forme gentili ed arrotondate ci portano in uno scenario romantico e delicato e dove i colori tono su tono e sfumati, quasi acquarellati, ne rivelano una concezione più manuale ed artistica.

Here is another artwork inspired by the nature, where the soft and rounded shapes bring us into a romantic and delicate scene and where the ton sur ton and blended colours, with a watercolour painted effect, unveil a more handicraft and artistic concept.

Bicchieri in foto a scopo illustrativo: Alighieri Acqua
Glass for illustrative purposes: Alighieri Acqua

Artwork GRAFITE

Un segno grafico abbozzato, come fosse schizzato a mina su di un foglio di carta, come disegno preparatorio per un lavoro più complesso, tributo alle tavole degli artisti del passato ma anche, visto il tema floreale, ad una certa corrente artistica impressionista di fine ottocento.

A sketchy graphic sign, as if it had been quickly sketched on a piece of paper, as a preparatory drawing for a more complex work, an homage to the canvas of the artists of the past but also, due the floral theme, a tribute to the impressionist movement of the late nineteenth century.

HUGO *Artwork*

Tema astratto, ma allo stesso tempo realistico. I richiami grafici all'arancia, al lime, alla menta e ai bicchieri da cocktails evocano scenari estivi e festaioli. I colori dettano freschezza e spensieratezza, nel complesso questo decoro accompagna, nella sua declinazione, un'atmosfera frizzante e divertente.

Abstract theme, but realistic at the same time. The graphic reference to the fruity elements like the orange and lime, to the fresh mint and the cocktail glasses it calls to mind summery and party scenarios. the colours inspire freshness and cheerfulness, and this artwork as a whole reminds to a sparkling and lively atmosphere.

Artwork TRIBAL

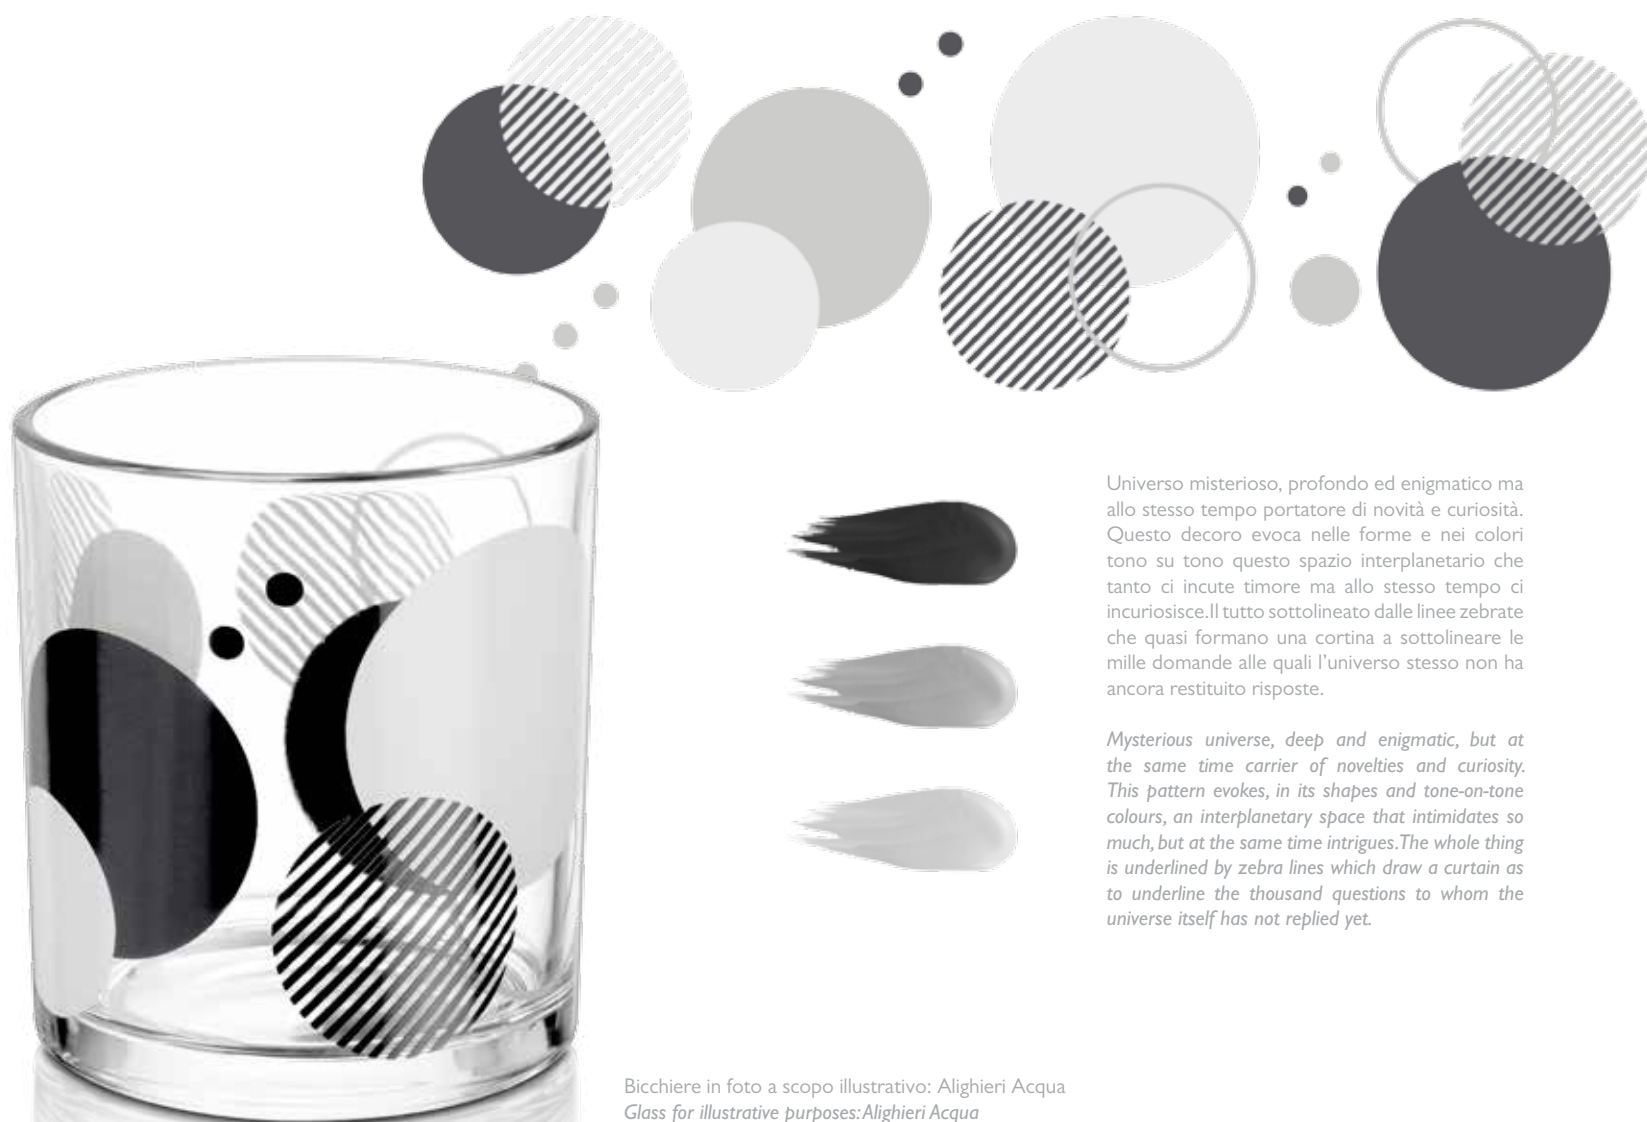

Colori, forme e ripetizioni geometriche-grafiche non lasciano dubbi sulla provenienza naturale e culturale dell'ispirazione che ha prodotto questo decoro. Africa, luce, colori decisi e luminosi, motivi e textures tradizionali sono gli ingredienti che fusi tra loro richiamano le sensazioni di una cultura che fonda lontano, fisicamente e temporalmente, le sue radici.

Colours, shapes and geometrical-graphic repetitions make quite clear the natural and cultural origin of the inspiration that lead to this pattern. Africa, light, strong and bright colours, traditional motives and textures are the ingredients that, blended together, recall sensations of a culture that established its roots far away, in space and time.

PLANETS *Artwork*

Universo misterioso, profondo ed enigmatico ma allo stesso tempo portatore di novità e curiosità. Questo decoro evoca nelle forme e nei colori tono su tono questo spazio interplanetario che tanto ci incute timore ma allo stesso tempo ci incuriosisce. Il tutto sottolineato dalle linee zebra che quasi formano una cortina a sottolineare le mille domande alle quali l'universo stesso non ha ancora restituito risposte.

Mysterious universe, deep and enigmatic, but at the same time carrier of novelties and curiosity. This pattern evokes, in its shapes and tone-on-tone colours, an interplanetary space that intimidates so much, but at the same time intrigues. The whole thing is underlined by zebra lines which draw a curtain as to underline the thousand questions to whom the universe itself has not replied yet.

Bicchieri in foto a scopo illustrativo: Alighieri Acqua
Glass for illustrative purposes: Alighieri Acqua

Artwork SARDINA

Il mare, l'oceano, la profondità e la vita; sono questi gli elementi che compongono in sintesi il DNA di questo decoro. I colori classici delle immensità marine ne definiscono l'ambiente mentre le forme ben note e la loro disposizione dinamica e diversificata connotano la forza vitale che scaturisce dalle profondità e che esplose assecondata dall'immenso spazio.

Sea, ocean, depth and life; these are in a few words the elements that make up the DNA of this pattern. The classic colours of the marine immensity define the scene, while the well know shapes and its dynamic and diversified disposition characterize its vital strength, which is springing from the depth and then explodes, supported by the immense space.

Glass for illustrative purposes: Conic Acqua

SANDRA *Artwork*

Controluce, leggerezza, atmosfera sono le principali sensazioni che ci vengono evocate da questo decoro apparentemente astratto, nelle forme molto dinamiche si possono riconoscere fiori e farfalle che, ben supportati dai colori naturali e pastello ci fanno immergere in un'atmosfera bucolica e pulita, affollata solamente da insetti, polline e semi quasi a voler suggerire un richiamo della natura alla semplicità della vita stessa.

Lightness , backlight, create the atmosphere of this new decoration , which is abstract and clearly lets us glimpse flowers and butterflies painted in a soft and light color that we can breathe like clean air in uncontaminated nature, simply.
