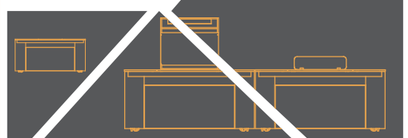
FLEX offers more possibilities in today's living cooking. Portability and convenience of FLEX are perfectly suited for high-overturn banqueting and large exhibitions.
With that, no limited by the venue and no longer requiring too much time to set up, FLEX is the game changer.

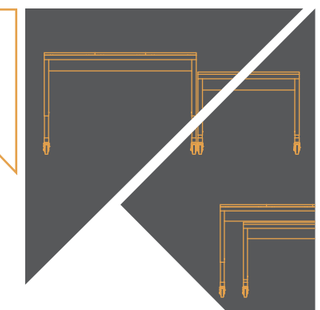


DELUXE

As TC signature product, Deluxe is not only chef's first choice, but also the matrix for all TC buffet stations. The unique durability and stable performance of Deluxe is contributed by the steel body and the swing design.

DELUXE *LITE*

The very first idea came to us when designing Deluxe Lite is making it as multipurpose as we can. We found out a lot of mobile stations are not easily maneuver.
High mobility built our very first design idea of Deluxe Lite. By partly using aluminum in this station body, Deluxe Lite achieved a good balance piont between stability and maneuverability. It perfectly present most features of Deluxe while keep its own personality.



MINI STATION

Change means we see the world in different perspective, change also challenge the world to accept new ideas. As we build up MINI Station, we face this challenge frequetly.
MINI Station perfectly match all TC Stations , we invite you to join us for the journey of change.

MOBILE STATION COLLECTION

As an agitator, designer, and theorist, TC work fearlessly to explore the boundary between creativity and adaptability.

From kitchen to ballroom, live cooking to catering, we are inspired by the idea of providing mobile F&B service with food trucks and buffet stations.

After 5 years and thousands of testing, we present you our TC Mobile Station Collection-Deluxe, Deluxe Lite, FLEX and MINI Station.

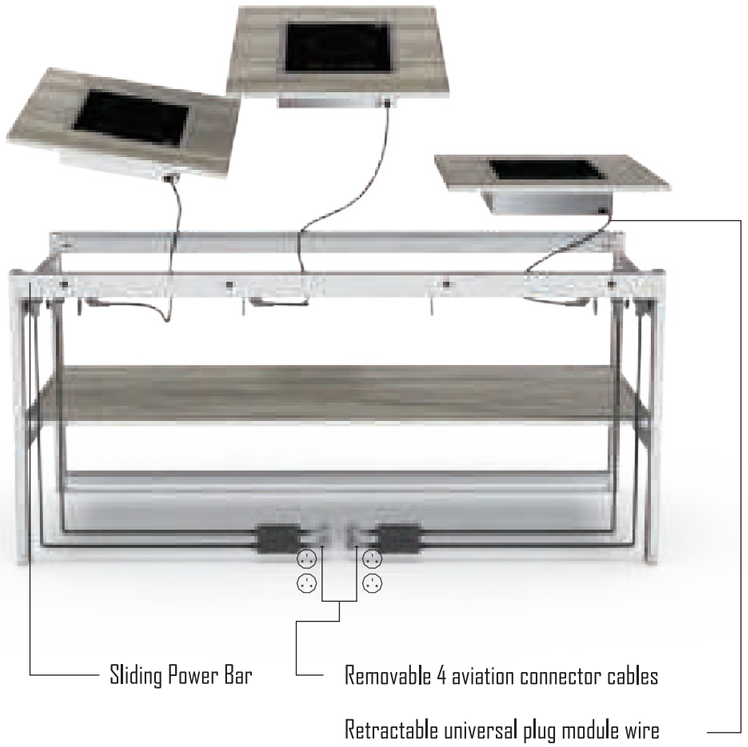
Safety Circuit Design

Sliding bar based on the same design of Deluxe lite power bar plus sliding function. It designed to eliminate all potential hazards by using high power cooking devices and minimizing maintenance and repair cost. Built-in 4 individual electrical supply sets include weatherproof and dust-tight 10A universal socket with overload circuit breaker and aviation connector plug in each set.



Universal Adaptor | ELCB adopter | Overheat protection | Overloading Protection | Triple-core wire (ground protection)

Aviation Plug | Removable | Fast Update | UL | CE | CCC

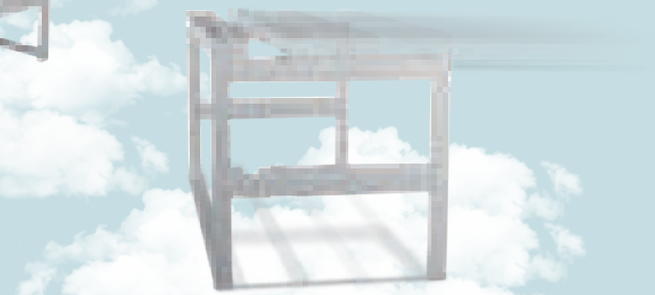
Best Efficiency

Easy to assemble in ONE minute by ONE person
and also easy to use by reducing daily operational errors.

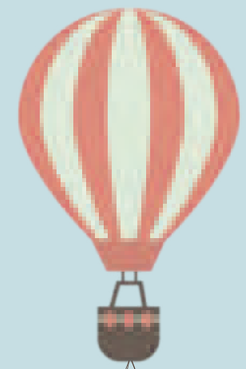
Sliding Power Bar

-The bar integrated all the electrical parts, could be easily sliding in and out smoothly for quick station setup and knock down.

REAR VIEW



SIDE VIEW



Swing Folding

ELCB adopter

Universal Adaptor | ELCB adopter | Overheat protection | Overloading Protection

10A/16A Earth-leakage circuit breaker are added extra protection against the risk of electric shock. It instantly cuts the power in the event of an earth connection leakage.

Color Selection

Color is the initial impression of each product. The visual texture largely determine our feeling of products. Sometimes aesthetic is under the light and reflection. By choosing different panel colors, textured finishes and different frames, you can give each mobile station its own character.

Modular System

Thinking out of the box

We searched for a way to break through the boundaries of functional extension in F&B equipment, which could achieve cost efficiency and creativity freedom for chefs. The answer we found is this Modular System.

Bar Counter Module

It is easy to change the station to be a bar, just put the bar counter module on.

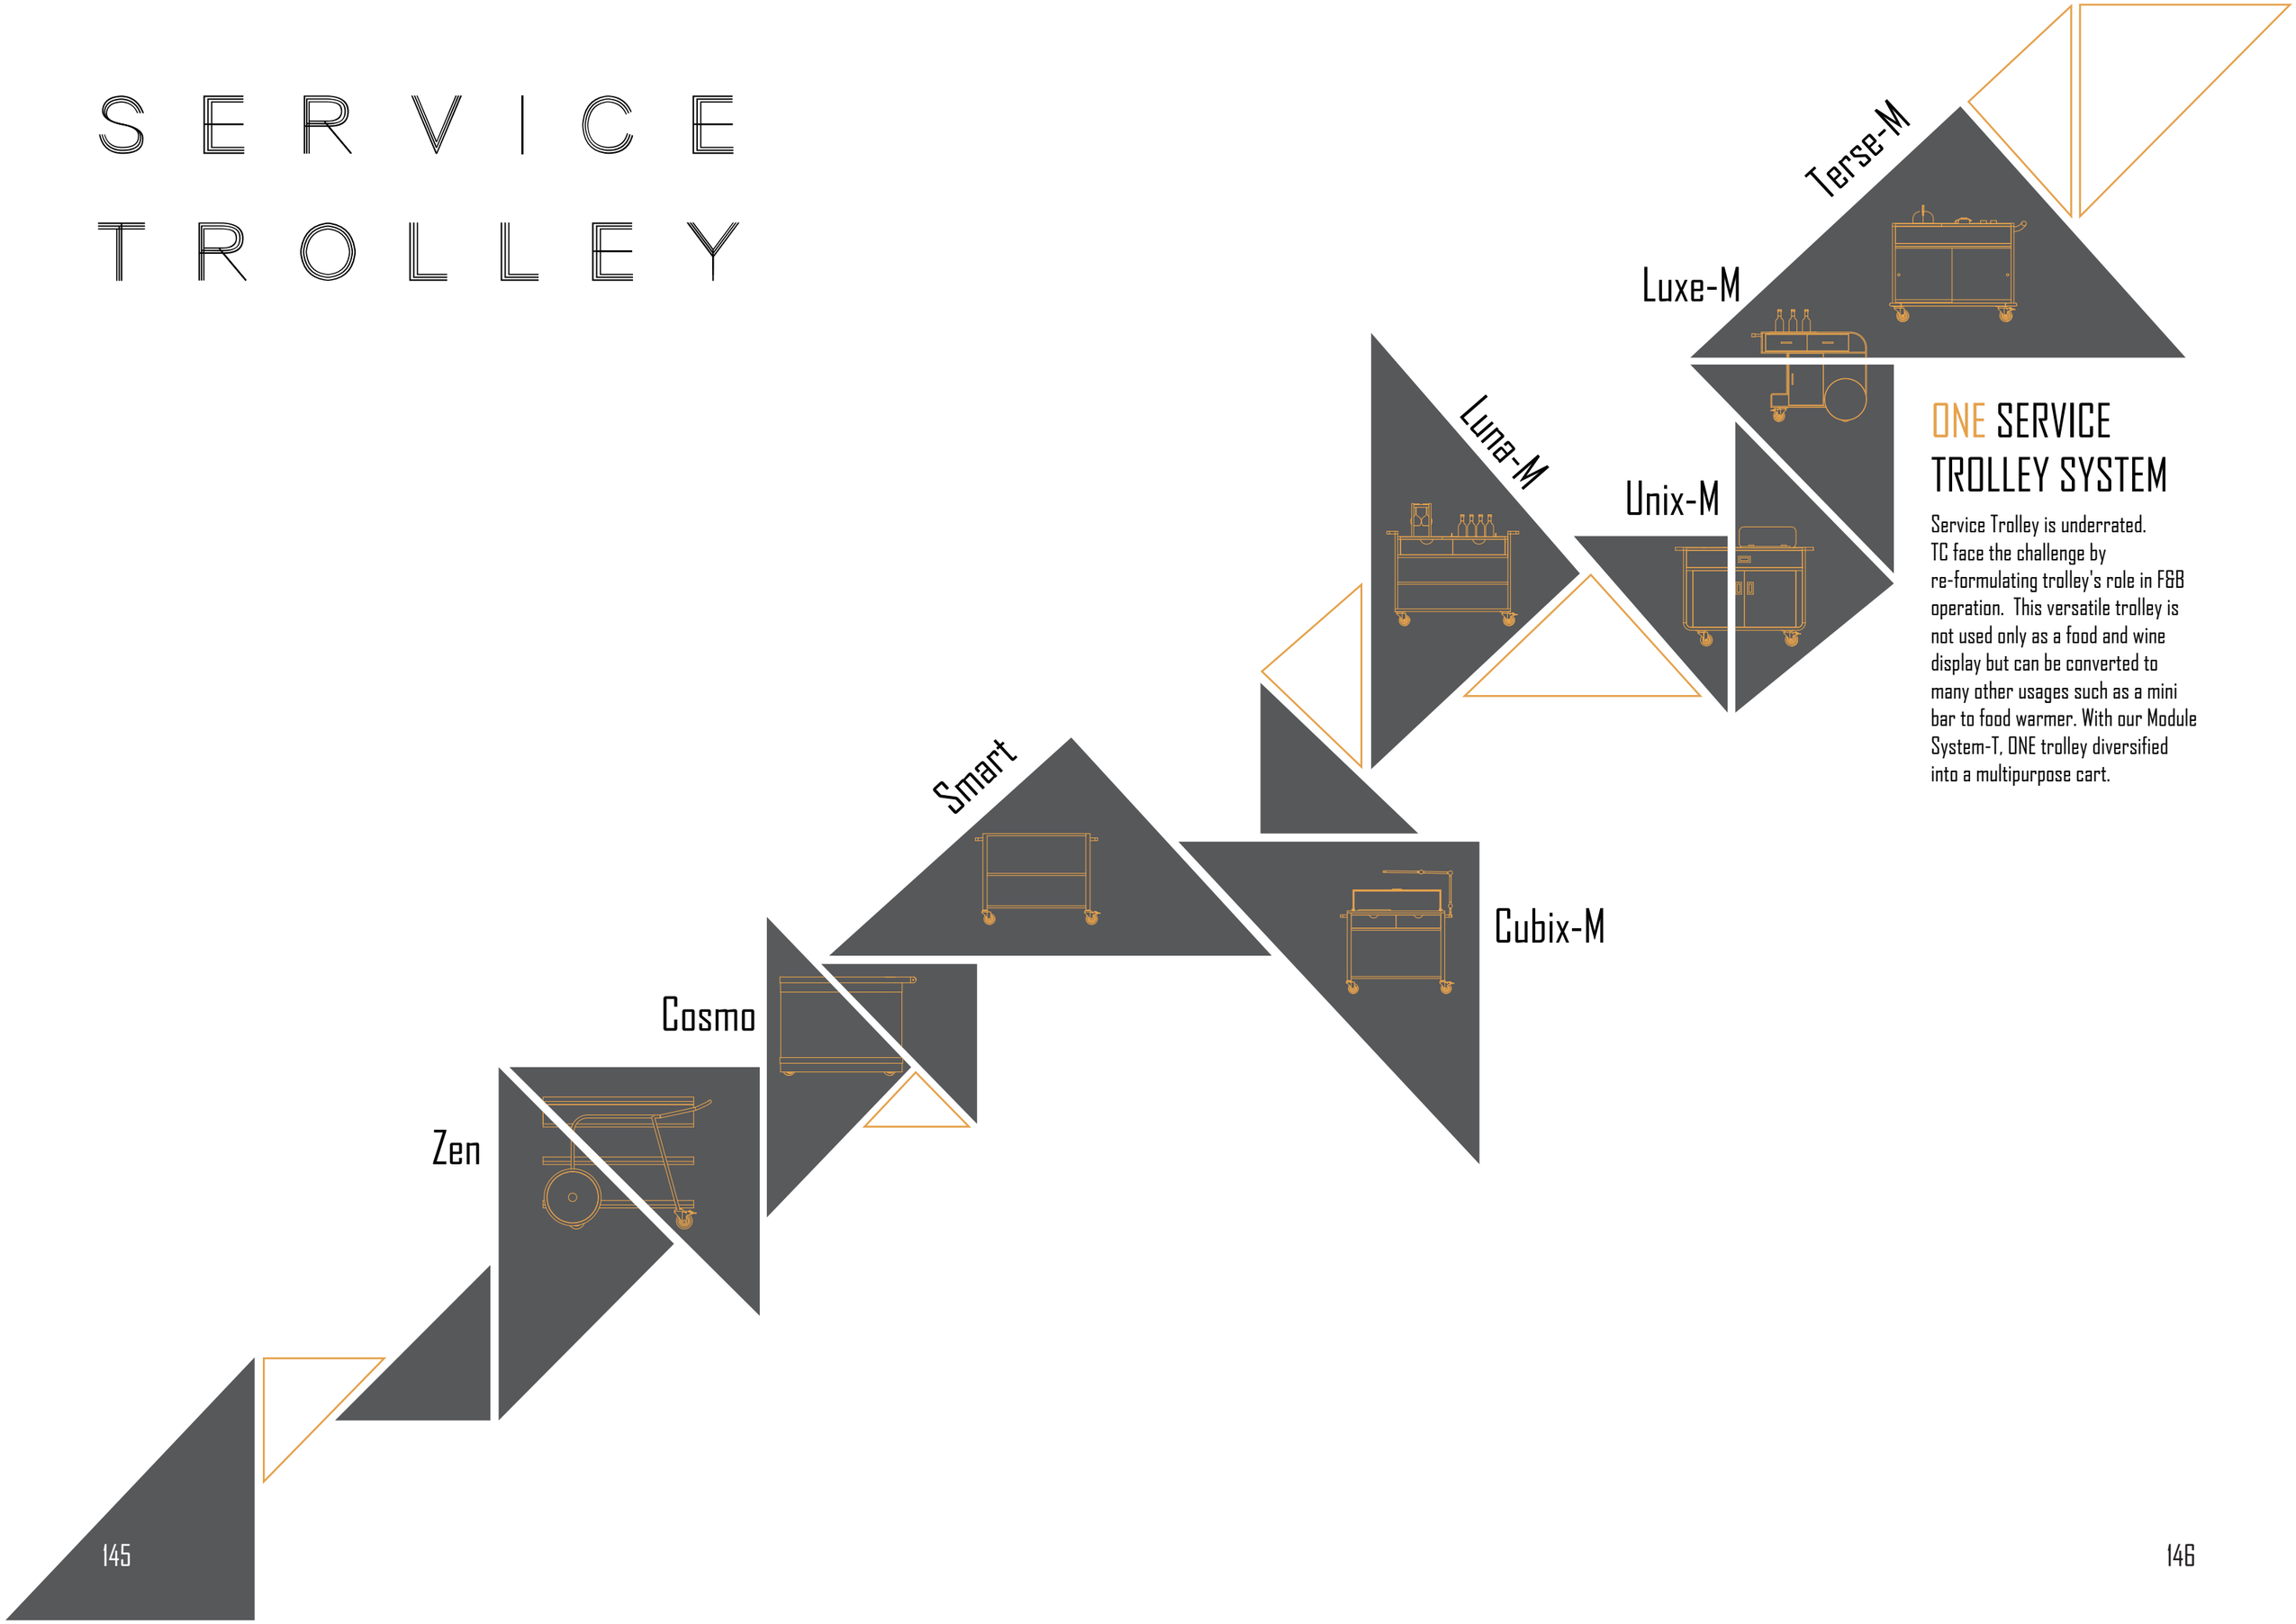
SERVICE TROLLEY



ONE SERVICE TROLLEY SYSTEM

Service Trolley is underrated. TC face the challenge by re-formulating trolley's role in F&B operation. This versatile trolley is not used only as a food and wine display but can be converted to many other usages such as a mini bar to food warmer. With our Module System-T, ONE trolley diversified into a multipurpose cart.

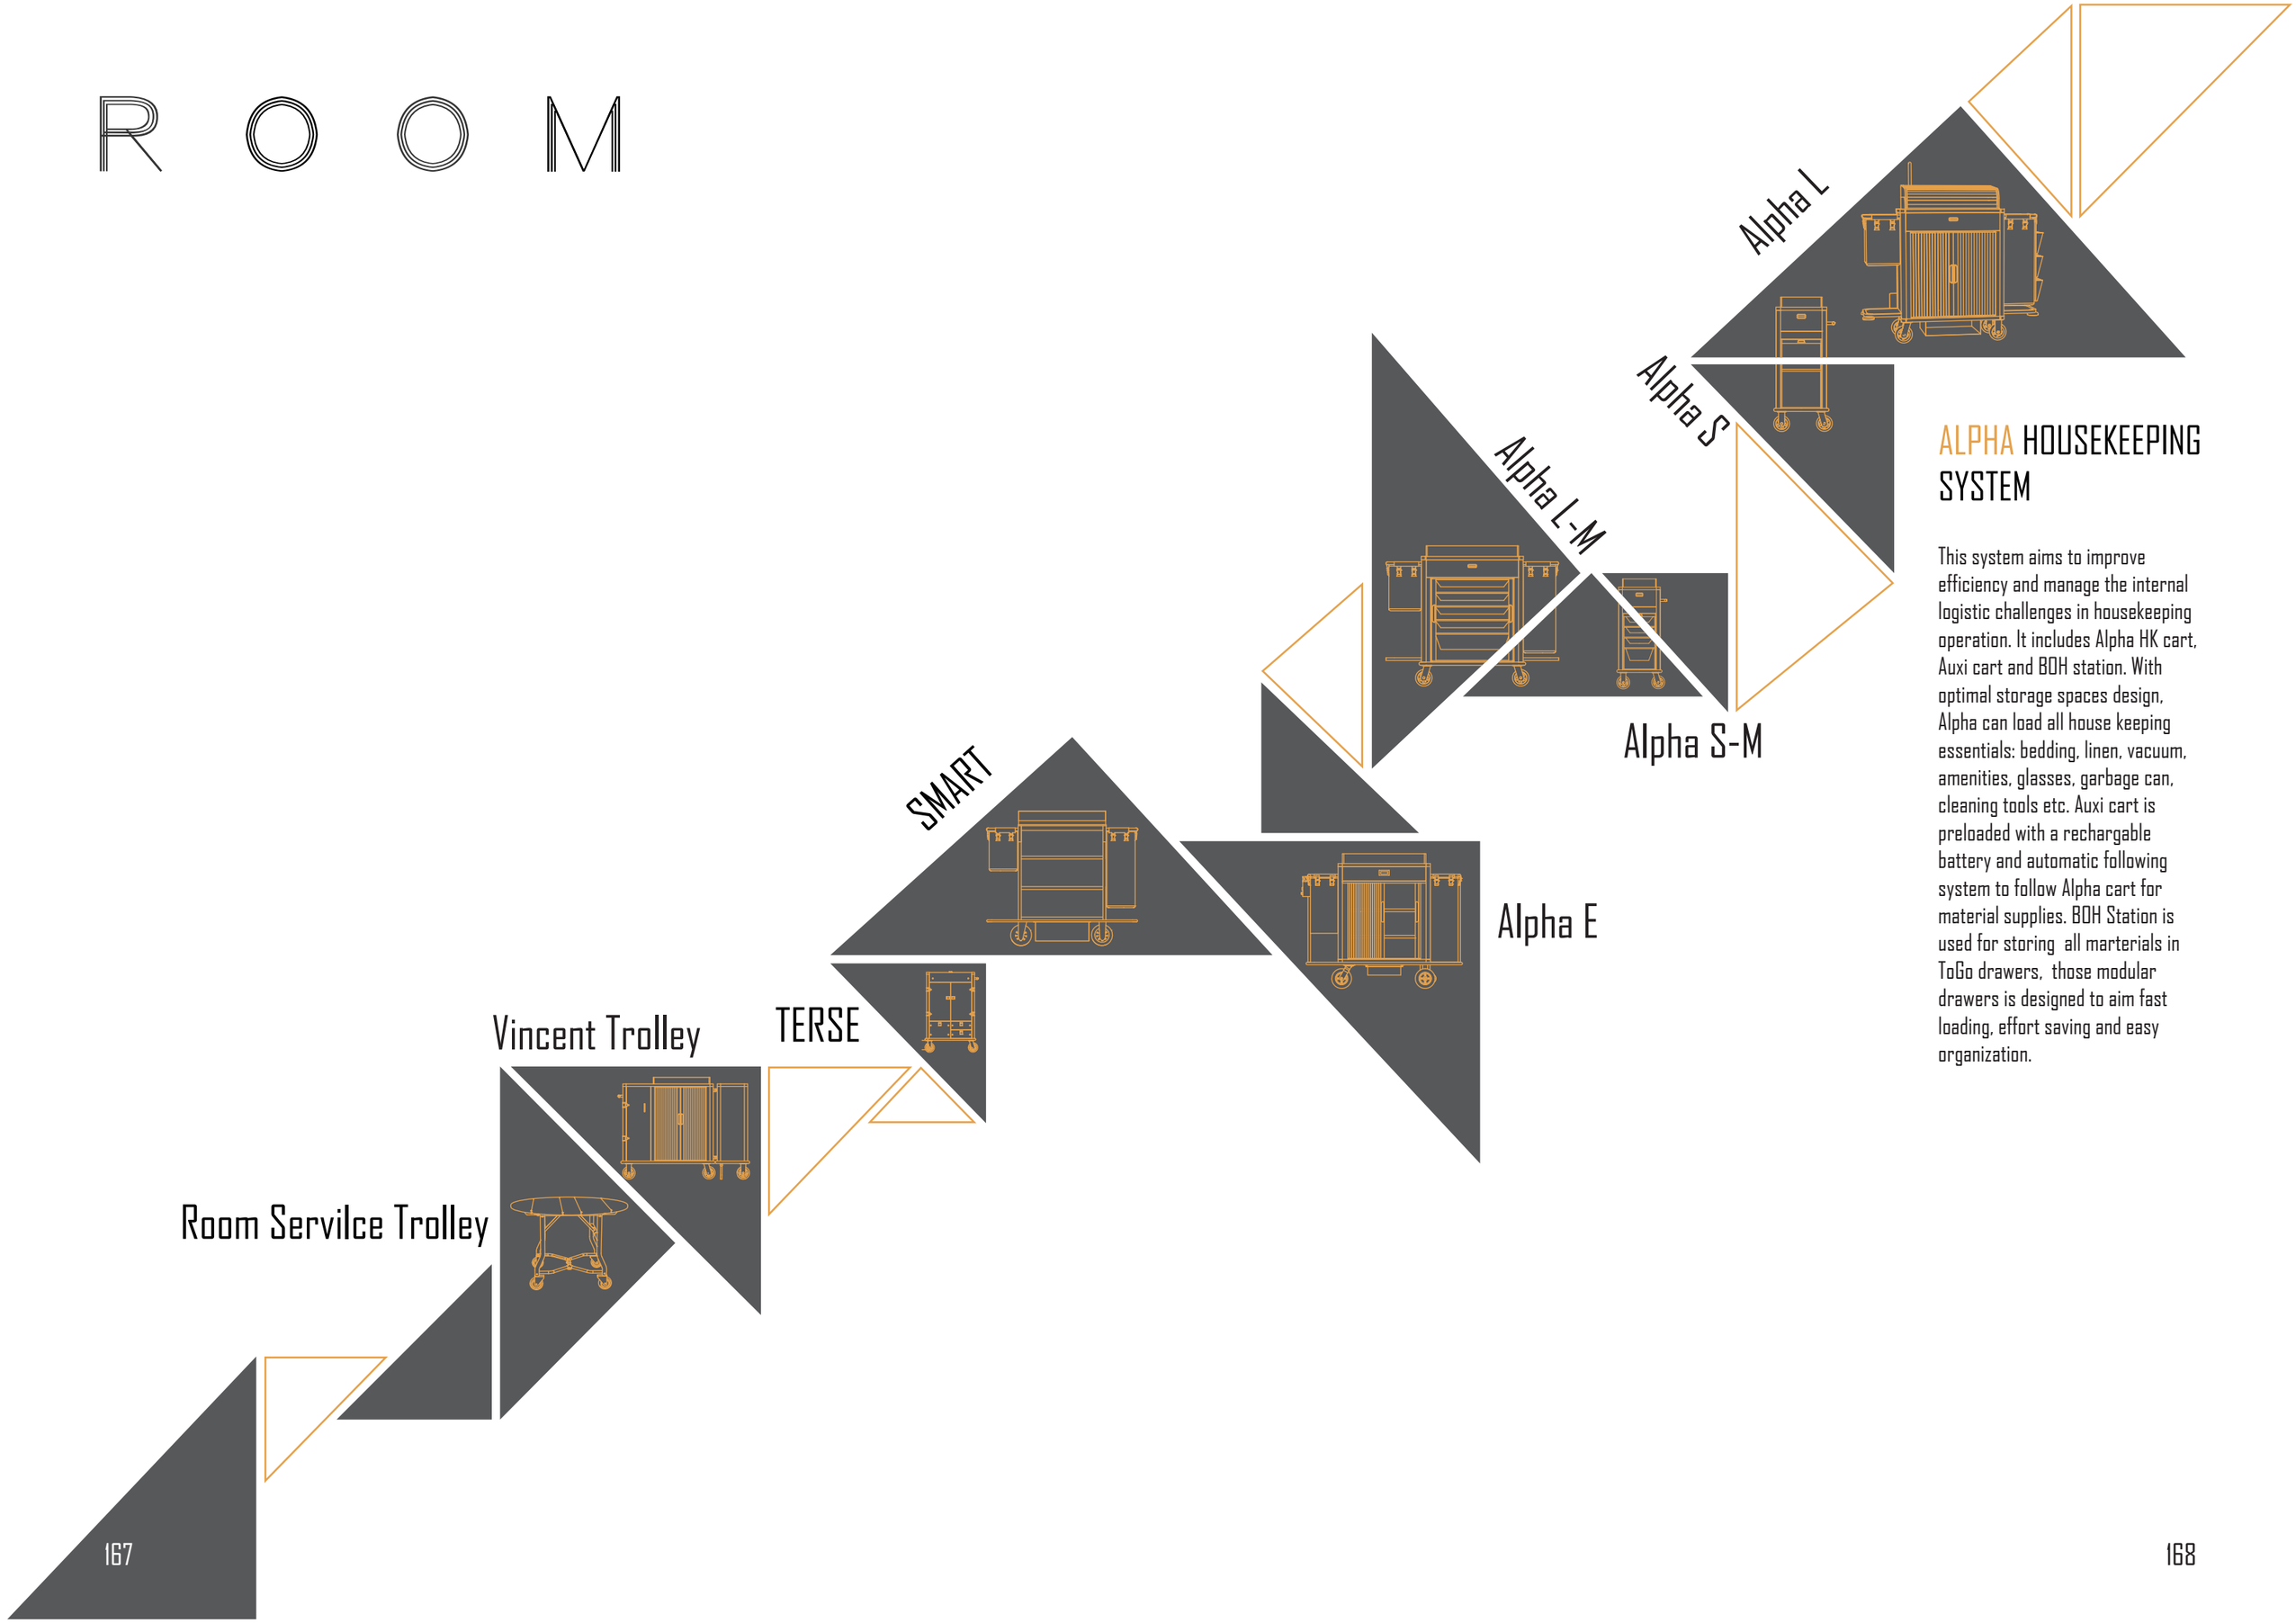
R O O M



ALPHA HOUSEKEEPING SYSTEM

This system aims to improve efficiency and manage the internal logistic challenges in housekeeping operation. It includes Alpha HK cart, Auxi cart and BOH station. With optimal storage spaces design, Alpha can load all house keeping essentials: bedding, linen, vacuum, amenities, glasses, garbage can, cleaning tools etc. Auxi cart is preloaded with a rechargable battery and automatic following system to follow Alpha cart for material supplies. BOH Station is used for storing all marterials in ToGo drawers, those modular drawers is designed to aim fast loading, effort saving and easy organization.

HTA01L

Size:L930/1590×W510×H1200mm
L36.61/62.60"×W20.08"×H47.24"

For maximum space using, we designed the special range of amenities compartments on the top of Alpha cart with a roll-up door.
Standard body with 3 shelves are perfect for clean linens and dirty linens go to one side of the removable waterproof linen bag. Another side is a smaller bag which can be used for collecting garbage, beneath space for vacuum or other cleaning equipment.
And last but not least a rack holder is installed at bottom of the cart to store glasses and cups.

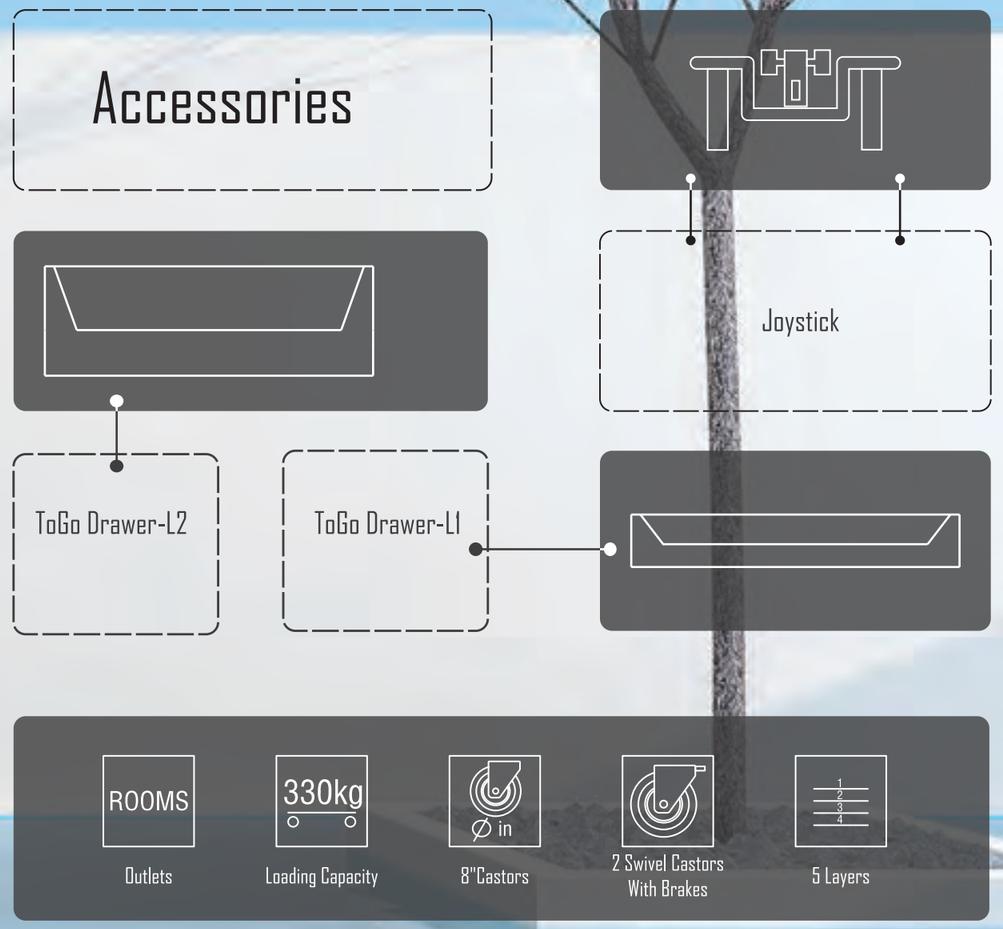
Alpha - M Auxi

HTAMA01

Size:L870xW540xH1570mm
L34.25"×W21.26"×H61.81"

As a partner of Alpha, Auxi was designed with big loading capacity for linen, amenities, drinks etc. Usually loaded carts are heavy to push, but we empower the Auxi cart with a rechargeable battery, electric wheel with brakes and a automatic following system. Auxi follow Alpha without pushing, that drives logistic and operational efficiency up and save efforts. As a result, Auxi make housekeeping as easy as possible.



ToGo Drawer

Standardized ToGo Drawer modules is available in 4 sizes, you can customize the storage space by playing with those drawer modules. ToGo Drawer is exchangeable between Alpha cart, Auxi cart and BOH station, that enables fast pre-loading, fast replenishment for saving operation time.

Size:L460×W538×SH460×H820mm
L18.11"×W21.18"×SH18.11"×H32.28"

-38% lighter than steel chairs, easy to carry.
-Storage rooms saving by stacking up to 7 pieces.
-The rust-proof aluminum frames with exclusive wooden finish is totally waterproof, detachable cushions can be stored quickly, it is perfectly for outdoor using under various weather.
-The curved backrest designing provides more support and comfort even long time sitting.

BANQUET CHAIR

Zen

Code: BC0101
Size: L450×W575×SH460×H755mm
L17.72"×W21.18"×SH18.11"×H32.28"

Material
- Powder coating steel leg with multiple and wooden color options
- High- density spong, curved cusion, maximum leg support for longtime sitting
- Selected durable fabric upholstery, water- resistance and antiflaming are optional with extra charge
- Stacks up to 6- 8 high for saving storage
- Plastic glide

Luxe

Code: BC0305-1
Size: L530×W620×SH481×H860mm
L20.87"×W24.41"×SH18.94"×H33.86"

Material
- Aluminum leg with multiple color options, 38% lighter than steel chairs, easy to carry.
- One piece high- pressure wooden bent integrated back and seat
- High- density spong, curved cusion, maximum leg support for longtime sitting
- Selected durable fabric upholstery, water- resistance and antiflaming are optional with extra charge
- Stacks up to 5- 6 high for saving storage
- Plastic glide
