DINNERWARE

Premium Bone Porcelain

Premium Bone Porcelain – fine “Bone China”, considered to be the most precious porcelain of all. Its manufacture requires special technical skill and know-how.

As its name suggests, bone china is a porcelain with a high proportion of bone ash.

The body is practically ‘vitrified’, non-porous and brilliant white. This is the secret which gives bone china its special aesthetic material properties.

- high degree of whiteness
- special reflective quality
- soft lustre
- extreme transparency

In connection with this, there are important practical advantages:

- high mechanical resistance
- dishwasher safe
- microwave-safe

(exceptions: tableware sets with precious metal decoration)

Premium Porcelain

Premium Porcelain has been developed from the classic Vitro-porcelain. Villeroy & Boch have succeeded in combining fine white ceramic body with the excellent characteristics of use of Vitro-porcelain. Due to the practical and aesthetic advantages of this material many of the Villeroy & Boch dinnerware series as well as all the special hotelware series are made of “Premium Porcelain”.

Care instructions

Villeroy & Boch dinner services can safely go in a dishwasher. However, there are a few points to observe when washing items in the dishwasher in order to ensure that patterns and surfaces lose nothing of their brilliance or colour intensity.

- Do not leave very dirty items in the dishwasher for too long
- Use the most delicate programmes possible
- Be sure that the water is decalcified
- Do not place items too closely together
- Open the door as soon as the programme finishes to prevent any remaining steam from settling on the dishes
- Observe the manufacturers’ recommendations regarding washing times and detergent amounts

Precious metal finishes such as gold, silver and platinum are not entirely insensitive to external effects such as mechanical, chemical and thermal influences in the dishwasher. Villeroy & Boch therefore recommends handling this dinner service with the level of care its value and exclusive appeal deserve.

Precious metal décors must not be used in a microwave.

For further information and care instructions, please go to the “Service” column at www.villeroy-boch.com.

CUTLERY

Stainless steel

Stainless steel cutlery from Villeroy & Boch not only looks elegant, but it also has a number of advantages.

Our stainless steel cutlery is made of high-quality 18/10 stainless steel. Except for the knives. A special blade steel is always used for knives to ensure a good cutting ability.

All stainless steel alloys we use are always rust-proof, tasteless and dishwasher-safe.

Care instructions

- Everyday use is the best care.
- Rinse the cutlery quickly before putting it in the dishwasher.
- Follow the dishwasher instructions.
- Put cutlery in the dishwasher basket with the handles pointing downwards.
- Remove the clean cutlery straight after the last rinse cycle and wipe the knife blades dry to prevent limescale deposits.
- To remove stubborn stains, treat the cutlery with a stainless steel cleaner.
- Silver-plated cutlery should be cleaned with a silver cleaner every now and then.
