THE DIFFERENCE  
BETWEEN A  
**MEAL & AN**  
**EXPERIENCE**

## OUR STORY

Some of our happiest memories are born around the table—shared stories, good food, and warm laughter. It's what we were founded on in 1993, and it's what we believe in today.

While abroad, our founders fell in love with a surprising find: European ceramics. Enamored with the beautiful porcelain, their entrepreneurial spirits carried them home to their garage in Pittsburgh, where they began directly importing it to the U.S.

Building one relationship at a time, FORTESSA® TABLEWARE SOLUTIONS™ began by selling direct to customers, changing the way tableware products were distributed. And as relationships became friendships, products became passion. Dedicated to creating the most durable and unique products, we began working globally with factories to develop cutting-edge designs.

Driven by a love for shared meals, our company was built to bring exceptional tableware to market. It's our belief that business should feel as easy for customers as it does to enjoy dinner with friends. The name FORTESSA—derived from the Italian word for strength, *forte*—reflects our pride in quality products and lasting relationships.

Over 25 years later, we value food and friendships just the same. Whether it's an eight-course meal or a cup of coffee, every moment matters. Our passion for shared meals is behind every thoughtful design and unique product we craft. FORTESSA is proudly found in over 80% of all 4 and 5 star hotels in the U.S., in thousands of restaurants worldwide, and in just as many popular retail locations.

Our aim is to inspire moments around your table, both big and small.

We are FORTESSA TABLEWARE SOLUTIONS, the difference between a meal and an experience.

## 18/10 FLATWARE

FORTESSA® flatware includes patterns from traditional to modern, and fashion forward. Its designs are visually elegant with a heft and balance that feels good to the hand and will not flex while in use. Meticulous craftsmanship results in excellent finishing and polishing as well as the full execution of our designs in 360° around the product. FORTESSA® flatware is made from 18/10 stainless steel, the highest quality available for flatware.

## CARE & HANDLING

Extend the life of your flatware through proper care and handling.

# FLATWARE CARE & HANDLING

## FIRST *use*

- Before first use, wash flatware in hot water using mild detergent (rinse and dry before storing).

## HANDLING

- When clearing tables, separate flatware from holloware and china to prevent scratching.

## PRE-*soaking*

- After service, immediately pre-soak in 140-160° water only (no chemicals or detergent) for 10 minutes.
- Soak in basket in plastic bus tub, avoiding aluminum, as aluminum may cause discoloration.
- Do not use steel wool, metal scrapers, or other abrasive materials to remove food remnants from flatware.

## WASHING

- Wash as soon as possible in basket, mixing forks and spoons so they do not stack.
- Load forks and spoons handle-down to ensure maximum rinse.
- Load knives blade-down for safety in a separate basket (and to prevent scratching).
- **PVD ONLY** Do not wash color-coated flatware with other metalware (chemical reactions may occur that cause corrosion).
- **PVD ONLY** Only use mild, metal-safe dish detergent (no harsh chemicals or water softeners).

## DRYING (*afterwash*)

- Remove residual water by drying with a soft cloth or towel to prevent water spotting and corrosion.
- **PVD ONLY** Do not use speed dryers or burnishers.
- Store in dry area away from humidity and grease.

## BEST *practices*

- Load flatware loosely in basket, encouraging optimal water flow.
- Dry immediately after washing (never soak overnight).
- Never leave flatware unwashed for long periods of time, as acidic and salty foods may cause corrosion.
- Never soak or wash flatware with cast iron.
- Before washing large quantities of flatware for the first time, test your detergent on one item to ensure that no chemical reactions will occur.
- Do not use silver polish.
- **PVD ONLY** Color-coated flatware cannot be rebrushed—rebrushing will cause damage to coating.
