GLOW

Dear customers, dear friends,,

two difficult years lie behind us. Hotel and restaurant lockdowns around the world have not made everyday business easy for any of us.

But we believe that the situation will ease worldwide in 2022 and that people will enjoy travel, culinary delights and company again.

So we look into the future positively and I am pleased, after a one-year break, to present to you the new Zieher main catalogue 2022.

We were using the calm times last year for new developments and present proudly - among others - our new buffet system "Glow".

With "Glow" you can stage your products as a radiant centrepiece. But you will also find proven design and quality products in the catalogue, valued by top restaurants and hotels from all over the world.

We hope you enjoy browsing and look forward to a joint successful new year.

Yours sincerely

Dominik Zieher

Excellence since 1986 - Exclusive design since 2006

In the year 2006 we designed the first items ourselves and placed them on the market.
Since that time developing and implementing exclusive design objects has been our calling.
On this page we show a couple of the most important creations of the past years.

Design, innovation and quality are our mission!

The Zieher Design History

The timeline features a central map of Europe with the ZIEHER logo overlaid. A horizontal timeline axis at the bottom marks the years from 2006 to 2020. Various design objects are presented in rectangular frames, connected to the timeline by vertical lines. The designs include:

- 2006: A tall, slender wooden serving rack on a circular base.
- 2009: A white ceramic bowl filled with fresh fruit and vegetables.
- 2011: A wooden serving tray with compartments for bread and small appetizers.
- 2013: A glass bowl containing a colorful fruit salad.
- 2014: A set of three modern, illuminated metal serving stands.
- 2015: A large, shallow metal serving bowl on a tripod stand, filled with ice and drinks.
- 2017: A tall, black, tiered serving stand with a fruit basket on top.
- 2018: A set of small, round appetizers on a white tray.
- 2019: A set of three elegant wine glasses.
- 2020: A set of wine glasses, including a decanter and a glass filled with red wine.

The "Mercato" buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cutouts offer numerous advantages. "Mercato" can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (pages 50 to 57) can simply be laid on or pushed into the lateral cutouts of the baskets (max. width 21 or 34 cm). In addition to the mere presentation of fruit or baked goods, "Mercato" is also ideal for the coffee break or for placing miniatures of any kind.

The integrated rubber feet ensure safe standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation.

The "Solid" bed tray is a nice addition to this system. Due to its integrated foldable feet, there is no need for displays for elevated positioning. For more information on the bed tray, please see page 122, for the fitting "Solid" breakfast buffet, please check pages 116 to 121.

Integrated rubber feet guarantee stackability and safe standing.

The lateral cut-outs are suitable for buffet platters with a max. width of 21 or 34 cm.

The Zieher cutting boards are oiled. The use naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wood kitchen countertops to refresh the surface. The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed instructions.

Further sizes and variations of the cloches are available on pages 114/115 and 173 to 179.

“Solid”

The high-quality cutting board made of fine end grain walnut wood is much more than a shapely and elegant kitchen aid. This product only unfolds its full potential in connection with the respective stacking rings and bowls. All parts have a groove at the top, which allows quick and easy stacking of the various items, even in mixed arrangement.

The milled groove of the cutting board serves on the one hand as a juice groove, on the other hand as a receptacle for various glass cloches. Thus aromatic types of cheese can be presented. A classic cloche made of handblown glass or an extravagant organically shaped cover made of highly durable borosilicate glass protects and stages the food at the same time. The stacking ring creates different levels of presentation when used in a clustered arrangement of cutting boards and trays. Also, the capacity of the bowls can be increased so as to present, for example, long baguettes.

Accurately fitting connection plates made of hardened, white or black coloured glass, can be slid exactly into the grooves of the stacked rings and thus work as buffet platters between the columns. This creates additional space and raises the flexibility of this system at the same time. Additional sizes of these plates, made of the same type of glass (page 54/55), offer a nice supplementation and allow an optically balanced buffet presentation.

The system blends in harmoniously into the walnut wood series “Solid”. Using further sizes of the glass cloches allow impressive arrangements on the buffet. Cutting board, ring and bowl are sealed with high quality oils. Especially regarding the cutting board, this enables the simple refurbishment of the surface from traces of daily wear and tear.

Each cloche on this page is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 115), these items are made of a single massive glass drop. As a result there can be air inclusions and minor streaks which cannot be avoided. Each cloche is individual, the result is a harmonic enlivenment of the buffet for an attractive price

Cloches made of borosilicate glass are heat resistant, dishwasher-safe and very easy to handle for the guests. The main features of this material are a great resistance against heat and changes in temperature as well as a high breaking strength. Each item is manufactured by hand and therefore shaped individually.

Bread and more – attractively presented!

The presentation of bread is not only important at the table, but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for one or two wooden trays allow for a clear arrangement of various types of bread. With the help of a connector piece, two of these tray displays (item 4746) may be stacked and used on top of each other - the ideal solution for small buffet tables. A fitting cutting board including a crumb drawer and an exchangeable grate, a cutting board made of end grain wood as well as various bridges (to be found on pages 120 and 121) complete the series and provide the healthy and diversified breakfast with a new look.

Besides the flat bread tray you can also find a deeper version of this tray, which is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions (for the tray) offer space for several miniatures (pages 265 and 266) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item

Please note: Items made of walnut wood are not dishwasher-safe.

More items of the "Solid" walnut series are available on pages 234 to 245.

Show cooking is a popular trend!

Whether using it for catering, at events or at the hotel's own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both cutting boards and bridges have been chosen in such a way, that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

"Solid" is entirely made of walnut, probably one of the most beautiful and most stylish woods.

More items from this series can be found on pages 234 to 245.

Please note:

The Zieher cutting boards are oiled. The use naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface. The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.

The rubber feet are set back from the rim to enable the transport in a tray trolley in 1/1 EN-format (60 cm x 40 cm).

The room service tray as well as the bed tray with feet stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The tray also cuts a good figure on the buffet. The positioning feet make it possible to dispense with the use of displays for heightened placing. A speedy setup and flexible handling facilitate daily operations.

"Podia"

Hotel cosmetics: PAM Berlin Slipper & Hotel Supplies
www.pam-berlin.de

The buffet bridges and trays of the "Podia" series offer several advantages!

They are light but robust, flexibly usable and can be stored in a space-saving way. With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - "Podia" offers multiple possibilities for use and flexible handling!

The tray in 1/2 GN format is especially suitable for different miniatures made of porcelain and glass. Slide-proof silicone coasters in different styles (page 214) guarantee a good grip during service.

All parts of this series consist of form-glued authentic wood veneer. The bridges are available in two types of wood. The light version harmonises very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

Please note:

Not dishwasher-safe!
Do not immerse in water!

Real added value is provided by different boxes made from the same material. They are available as an insert for the bento box (page 129) and as a cutlery box in two sizes. In addition, three smaller variants have been developed, paying particular attention to the greatest possible compatibility with the trays. The boxes can be arranged in a variety of combinations on all melamine trays and thus offer enormous potential for a use at the Flying Buffet, in catering, at the bar or at the breakfast buffet. A selection of suitable combinations is available on the following pages.

The sturdy containers can also be used as plain elevations for platters and trays. Without additional efforts in procuring material, it is possible to arrange varied buffet presentations quickly and easily. Additionally available are different versions with three round or oval cavities. A big selection of suitable inserts made of glass or porcelain is available on page 268 and 269.

The spoon rest made of melamine is available on page 134, suitable spoons and skewers on pages 140 and 141.

Robust and elegant - melamine!

The advantages of melamine, such as dishwasher-resistance and food-safety, are particularly evident in daily catering use.

The matt black surface of the Zieher melamine articles generates a superb contrast to glass and porcelain and impresses by its pleasant haptics.

Modern design and the simple language of form of the trays, which are available in common GN formats, make up a pleasant addition to the articles of the "Modul" series (page 140/141). The bridges and spoon rests (page 138) can be used on all trays, non-skid rubber feet on the bottom side facilitate the service enormously.

"Modul" – walnut

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in everyday use.

"Modul" – walnut

"Modul" is a flexible product ready for "Flying Buffet" service - and therefore ideally suited for use in the catering area. The slim, oblong format of the base tray, which is available in three sizes, renders the often cumbersome service at crowded standing receptions barrier-free and uncomplicated. The trays can be variably fitted with glass or porcelain parts, a bridge for glasses or a spoon bench for 4 spoons. When using two spoon benches, 4 long skewers can be placed safely on top.

Every single piece has been specially developed for this catering system. Trays, bridge and spoon rest are available in 2 variations: The series "Modul" is manufactured from solid walnut wood and from melamine in a modern matt-black design (pages 130 131, 138 and 139). Suitable miniatures made of china and glass (pages 140 to 142) can be fitted to all trays! Shapely anti-slip mats made of silicone (page 143) facilitate catering to a great extent.

The buffet stands "Antique" are available on page 46. More items made of walnut are available on pages 110 to 125 and 234 to 245.

"Modul" – melamine

The advantages of melamine are manifold. It is dishwasher-safe and food-safe, which becomes evident in daily catering use! The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and modern appearance.

Non-slip covers in matt black: Classy look - great benefit!

The matt black look and velvety texture of these mats create an interesting contrast when used in connection with the trays made of walnut. In combination with the "Modul" melamine trays they become almost invisible.

The mats made of food-safe silicone are extremely skid-proof and facilitate the serving considerably. No clattering, no shifting of porcelain bothers guests and staff!

To clean the mats, please use a moist cloth with some detergent and wipe off with a cloth and clear water.

Non-slip coasters for single miniatures are available on page 214.

The mats are made to match the size of the walnut trays Art.-Nr. 4721, 4722 and 4723. With a sharp cutter knife, they can be adapted to the size of the melamine trays Art.-Nr. 4581, 4582 and 4583. We recommend to use a cutting mat as well as a metal ruler.

The glass cloches, which are available in 6 sizes (diameters 9 cm to 30 cm), delight by their high quality and unusual form! The presentation of fine truffles, an exclusive choice of cheese or simply a single praline - there is a fitting size for each purpose!

The lightweight cloches by Zieher are heat resistant, dishwasher safe and very easy to handle for the guests. Each item is manufactured by hand and therefore shaped individually.

The raw material for these items is borosilicate glass, which is mainly used for laboratory dishes. Its main features are a great resistance against heat and changes in temperature as well as a high break resistance. A wine cooler of the same design is available on page 60/61.

The cheese presentation system "Solid" is available on pages 112 and 113.

Each cloche is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 175), these items are made of a massive glass drop. Therefore air inclusions and minor streaks cannot be avoided completely. Each cloche is unique, the result is a harmonic enlivenment of the buffet for an attractive price

Example of application: Presentation of a premium beer type

These items are handblown and handcrafted. Minor size tolerances are normal and inevitable!

Enjoyment in a pentagon

These classy service platters take effect by their exceptional shape and the stylish combination of oiled walnut wood and slate-grey ceramics.

Available in two different sizes for just one or more persons, single courses right up to mixed arrangements - so-called “sharing plates” - can be staged appealingly.

For bigger buffet setups, several plates can be arranged space-saving and thus provide an extraordinary structuring of the buffet spaces. The pentagonal design allows numerous arrangements - as a result, beautiful presentation areas for regional delicacies, desserts, antipasti and much more can be created.

The projecting handle permits an easy removal of the insert and thus allows an uncomplicated cleaning of the thin but very robust ceramic.

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series “Connect!” convince as a snack board, serving or cutting board, or as a presentation platter created by the combination of several elements.

“Connect!” is an extremely versatile tool for everyday use. The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling. The solid walnut wood is sealed with high-quality oils, which makes it easy to freshen up the surface from traces of everyday wear and tear.

Please note the care instructions: not dishwasher-safe, do not immerse in water!

Breakfast in bed – inroom dining!

The room service tray (page 236) as well as the bed tray stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, a comfortable sitting beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room. The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 266. The trays are equipped with integrated grip holes and stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the "Solid" range.

Rubber feet at the bottom which are slightly offset towards the middle enable the transport in a tray trolley in 1/1 EN-format 60 cm x 40 cm.

"Solid" – Wood in its most beautiful shape

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in daily use. Please note the enclosed care instructions, not dishwasher-safe, do not immerse in water!

Delicacies in delicate setting!

Due to the comprehensive range of accessories, the “Solid” presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

Marco D'Andrea:

“In search of the perfect way to present my chocolates/truffles and after receiving manifold inspiration from colleagues, I have asked a carpenter of my acquaintances to manufacture some first prototypes. It was important to me that the box could be used to present jewellery and diamonds as well.

The round deepenings in the box are specifically matched, that even if the box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look. The brown tinted glass reveals the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it can also be used for the presentation of more chocolates or petit fours.”

Idea and design for these presentation boxes “Solid” for truffles and filled chocolates are from Marco D'Andrea, “Junger Wilder 2012” and proclaimed “Pâtissier of the year 2014” during the “Leaders of the Year Award” convention (powered by ROLLING PIN). His first cookbook “Modern TeaTime” was published by Südwest Verlag in autumn 2021.

Further awards:
“Pâtissier of the year 2019” - Rolling Pin
“Pâtissier of the year 2020” - Gault Millau
“Pâtisserie team of the year 2020” - Schlemmer Atlas

The bread baskets made of solid walnut wood surprise with their exceptional design and their highly sophisticated handcraft. Designing these bowls, the Milanese designer Itamar Harari did not only think of serving bread, but also of the typical Italian Grissini. Recesses at both ends are especially suitable for those. A selection of fruit in the hotel room also receives much attention if stylishly presented in these extraordinary bowls made of beautiful wood.

35 years of ZIEHER – a story of success from 1986 to 2021

Starting years as trading company

1986 – 1996

In 1986 Manfred Zieher and his wife Christa founded the company. Traditional gastronomic items were offered under the name MAC and soon also presented in an own catalogue and on shows. In 1994 the company was finally named Zieher.

Wine and more

Since 2015

The cornerstone for a collection for ambitious wine lovers was laid in 2015 with the "Vision" series. These unique wine glasses have been developed together with sommelier Silvio Nitzsche from Wein | Kultur | Bar Dresden. In 2017 the range has been extended by the extraordinary decanters "Eddy" and "Star" and has been made accessible through specialised retailers also for end users.

Establishment as gastronomic partner

1997 – 2005

In the second decade, Zieher became established as partner of gastronomy specialised shops. Since 1996 the company is located in Himmelkron, the prominent brand logo was registered in 2004 as a word and figurative mark.

Focusing and generational change

Since 2020

Zieher is focussing on their skills and positioning themselves more and more as an extravagant design manufacturer for luxury food presentation and wine glasses. The professional range has been tightened and the range for end users has been reduced to the FOR WINE LOVERS range. In 2021 the generational change has been carried out and the company has been handed over to the children Dominik Zieher, Jennifer Hübsch and Oliver Zieher (ltr).

Zieher today

In 2022 Zieher is present in 5 * Hotels and top restaurants in more than 90 countries and appreciates the long lasting, often amicable relationship with clients, partners and suppliers. As partners from the very beginning, a very special thanks

to Thomas Dötzer from Dötzer Restauration Bayreuth for his extraordinary culinary expertise and to Photographer Gerd Preiss for the artful composition and the exclusive styling of the Zieher image library.

Extravagance designed by Zieher

Since 2006

The first Zieher designed products were released in 2006. Individual creations in the luxury segment emerged from the close cooperation with renowned chefs and the inspiration by their artistry. Besides the cooperation with well-known Designers such as Itamar Harari for instance, many products bear the signature of Oliver Zieher. In 2009, "Skyline" - a benchmark for extremely flexible buffet systems - has been developed.
