## MICHAEL

Michael Aram is an award-winning American artist who has dedicated his career to craft-based design. Inspired by a trip to India at age 25, he established a second home and studio there, where he continues to draw creative inspiration today.

Trained as a painter, sculptor, and art historian, Michael has neatly applied his diverse background to the decorative arts. Lyrical and often witty, his work encompasses a wide range of media and reveals a rich and variant source of inspiration—nature, mythology, narrative storytelling, and purified form. Michael's work is also a celebration of craft and age-old hand working traditions. It is the enduring fusion of these ideals—originality, narrative, and craftsmanship—that has become the hallmark of this gifted artist.

*“There is a tremendous reflection of our own humanity in handmade objects. When you make things by hand, somehow that energy, that tension, that passion, all gets absorbed into the object. Objects are powerful. They trace history, trace our passage through time, they capture memories for generations.”*

## MAKING

A deep love for the handmade process is at the core of everything Michael makes. Fascinated with the richness of the living crafts tradition which he discovered on his first trip to Delhi, Michael would seek out craftsmen in the old city by listening for the sound of metal being beaten and by searching for the aroma of baked molasses, a signal of the sand casting process. The artisans he encountered were making ordinary objects such as buckets, shovels, and scissors, but for Michael, their traditional techniques were extraordinary. Michael spent hours observing artisans as they made things the same way families had made them for centuries. Touched by the talent and humility of these gifted artisans, Michael set up a studio in India where he has created his work for over 30 years. Today, over 200 artisans work alongside him in his workshop where the same creative interaction between artist and artisan remains the source of every object that Michael makes.

## MOTIF

Michael is highly inspired by his surroundings and often makes sculptures of objects that might otherwise be overlooked in the everyday. Nature is his biggest muse, as is the handmade process. His work combines the imperfections innate in the handmade process with the perfectly imperfect beauty of nature to create objects that reflect humanity. Many of his pieces are ingrained with a rich storyline, inherent symbolism, and deep-rooted meaning. Sometimes his work is simply an exploration and celebration of the handmade process.

# ANEMONE

This collection is inspired by anemone flowers, which in some cultures are said to bring good luck and offer protection. The flowers are associated with purity and peace.

"For me, there is a beauty and gracefulness inherent in anemones. The curving stems and vibrant blooms are feminine and deeply alluring."

*"For me, this collection is "state-of-the-art Aram". Initially conceived in etched glass, I soon discovered that black nickel finish, on etched steel, better captured the essence of the piece. The enamel on the flowers, delicately applied, teases the texture of the brass underneath. Simple, Asian-inspired lines feel modern and provide a clean backdrop - an ideal contrast to the ornate and sumptuous cast elements." - M.*

## BARK & BRANCH

The Bark & Branch Collection takes its inspiration from the intricacies of form and texture found in foliage from around the world. By interpreting plant forms in cast metal, Michael presents work which is evocative of a natural environment, transformed and redefined. Each piece is an intimate expression of Michael's individual creativity as well as an object of infinite and timeless meaning.

"For me, the shapes conjure a sense of freshness and fragility. At the same time the textures represent a metaphor for life itself - growth, vitality, pulsation. Everybody has an emotional response when they see natural objects. They are part of all of us. What I enjoy about these pieces is that in a way they are 'slices' of nature, small vignettes of the forest. It is fascinating to imagine the outside world infiltrating my interior spaces, as if the room is being gently consumed by nature."

# BLACK ORCHID

The Black Orchid Collection was inspired by the powerful sensuality of orchids and the rich ambiance of haute couture – strikingly simple yet full of the most extreme detail. The collection has an almost gothic feeling – opiated, lush, and smoldering – like the dark, velvety atmosphere of a luxurious evening.

“There is something so seductive about orchids. In blackened nickel, they are even more sublime, like a woman wearing a black velvet gown floating through a great estate or a glassy urban high-rise. The dark atmosphere of the orchids against the hammered metal is like the afterglow of a beautiful evening.”

*"Each of the tiny, unique dents represent a skilled craftsmen's rhythmic hammer hit against the stainless steel surface. It is truly an amazing process, and one that needs to be seen to be believed. Orchid flowers, individually sand cast, welded, and finished, are made by hand. No two pieces are ever the same; each reflects the individual hand of its maker." - M.*

## BUTTERFLY GINKGO

The Butterfly Ginkgo Collection celebrates the representation of flora as fauna. Michael's fascination with a particular type of ginkgo tree, the Ginkgo Biloba, or "Butterfly Ginkgo", which grows with a double leaf reminiscent of a butterfly's wings, gave rise to a fantasia image of the plant. Executed at the highest level of handcraftsmanship, each piece is rendered in solid brass with hand etched cocoon-shaped vessels. The pieces in the collection are a tour de force of the handcrafted process, capturing the poetic spirit that is so deeply indicative of Michael's work.

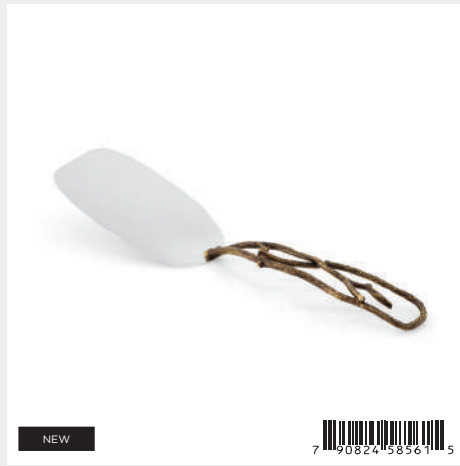

"The first time I saw this tree, it literally looked like it had been completely overtaken by butterflies... as if they would all take flight the moment I walked too close or made a noise. The idea that the leaves could evoke the beauty of butterflies was magical to me, like trees that can metamorphose from flora to fauna in the blink of an eye."

*"For me, the Butterfly Ginkgo pieces symbolize change (Metamorphosis), as well as the need to be strong and resilient in life. The collection was first inspired by a Ginkgo tree outside my apartment. Fluttering from the branch, the leaves seemed like butterflies as they flew through my bedroom window. This idea, flora seen as fauna, fascinated me. The Ginkgo tree is the oldest tree in civilization, and resilient to hostile environments, making it perfect verdure for NYC. I was struck by the poetry that, as the chrysalides accouch from their cocoons, they metamorphose into leaves and twigs as they land on the tree. The etching on the steel is meant to evoke the woven silk, and the bulbous shape of the vessels suggest the idea of the shed cocoon." - M.*

# CALLA LILY

The Calla Lily Collection is inspired by the beauty of the calla lily flower. The architectural, curving shape of the flower is strong, yet suggests an intense sensuality. The flower is associated with weddings as is symbolic of purity and innocence.

“I was thinking of the romance of weddings and how bouquets often use flowers which carry symbolism. I remembered a picture of a woman I had seen holding her bouquet of calla lilies. She was classic, timeless, and modern all at once. There is something so alluring about the billowy flowers and arching stems which feel contemporary, yet still utterly romantic.”

*"As a child, I was captivated by an 8x10 photo of my mother carrying calla lilies on her wedding day. Ever since I've associated the flowers with that idea of graceful elegance. I see the contrast of the stems with high polished, contemporary shapes as my idea of a 'modern woman'. Arranging flowers in a rose bowl is a pleasure, since they fall so beautifully." - M.*

# CALLA LILY MIDNIGHT

The Calla Lily Midnight Collection is inspired by the beauty of the calla lily flower. The architectural, curving shape of the flower is strong, yet suggests innocence and purity. The motif is inspired by the wedding bouquet as seen in Michael Aram's mother's wedding picture. In the Calla Lily Midnight Collection, the flowers are deep purple and gold, representing creativity, wisdom, dignity, power, and luxury.

"The dark, midnight color of the calla lily flower reminds me of how truly mysterious nature can be. It has a magical feeling that only darkness can create. The purplish black color I achieved is a combination of the calmest of blues with the fiercest energetic red I could find."

# CHILDREN

This collection is inspired by the joy and wonderment of children. They are objects that may capture their unique excitement at the world around them and our precious memories of them as they experience the world.

“There is no greater joy for me than to spend every small moment I can with my young children. Each game of tag, each precious scribble or crooked letter, sweet hugs and high fives cumulatively are my greatest gifts. In creating gifts for children, I hope to create objects which are enjoyed now and will become keepsakes in years to come.”

*"When my children were born, we gave a heart dish to our closest friends with the birth announcement. Now, I love visiting friend's homes and seeing the hearts on display. Some hold keys by the door, other contain precious trinkets by their bedside. I kept ours next to the crib, pacifiers clean and close at hand." - M.*

## DOGWOOD

The Dogwood Collection is inspired by the beautiful flowering tree, native to North America. Dogwood, as interpreted in metal, is enhanced with white enamel petals while its branches are finished in oxidized brass. These artful pieces integrate well in traditional and contemporary settings.

"I wanted to capture the drama and beauty of the dogwood tree as I remembered them from my childhood. There is something significant and tender about the mix of bronze branches and soft hued blossoms."

# IVY & OAK

The Ivy & Oak Collection is inspired by the picturesque hamlet built for Marie Antoinette at the palace of Versailles. The collection reflects the beauty of nature and the love of a country existence - or at least how the royal palace architects romanticized it at the whim of a young queen. The simple shape of each piece is inspired by the bucket Marie Antoinette carried as she pretended to be a milkmaid at her village refuge.

"I wanted to capture the balance between palace and country life in this collection. The delicate, winding cast ivy wraps around faux-bois etched metal elements, offering a romanticized interpretation of a simple life on the farm."

## LAUREL

The Laurel Collection is inspired by the beauty and movement of curved leaves and bowing branches. Aram loves the laurel motif, as it is symbolic of peace and victory. The sculpts are expressive and have a sense of movement and grace, but at the same time feel classical.

"I have laurel growing in my garden and am always inspired by the delicacy of the leaves and branches. I am amazed that, however delicate, the trees don't lose their leaves in winter. For me, as evergreens, they epitomize the idea of strength and resilience."

## NEW LEAVES

The New Leaves Collection is a celebration of the beauty and meaning found in individual leaves. Inspired by specific types of foliage that have taken on sentimental meaning in Michael's life, this collection embodies his genuine passion for nature in its purest and most personal form. Each leaf has its own story, its own symbolism and its own inherent wonder, detail and shape. For the first time, Michael is also interpreting an entire collection of leaves in the proportions in which they actually occur in nature, amplifying the sense of realism for which he is so well known. While each leaf is expressed as a sculptural object, Michael has yet again managed to infuse function into his forms, making them perfect for the most elemental moments in our daily lives.

# OCEAN REEF

The Ocean Reef Collection is inspired by the bounty and beauty found on the ocean floor. The ocean is symbolic of freedom and limitlessness, and coral represents renewal and strength. Coral reefs are also associated with healing, transformation, and refuge in the face of change.

"I was inspired by the resilient beauty and the tranquility of the undersea world. I remember picking up shells and bits of coral as a child and imagining the quiet strength of the undersea universe from which they came."

## OLIVE BRANCH

The Olive Branch Collection is one of the best known and most loved of Michael's motifs. The simple forms create objects that serve wonderfully as stunning individual gifts or an exuberant table setting that decorates an entire moment of your life. The theme itself captures all the most distinctive aspects of Michael's work - narrative strength, deep symbolism and extraordinary sculptural expression.

"The olive branch has always held a powerful meaning for me representing both peace and victory. In designing functional objects with natural forms, there is a mingled sense of fragility and intensity. For me, it is like nature spreading through my interior spaces - like a magical olive grove sweetly willing its way into my home."

## PALM

The Palm Collection is inspired by the beauty of a windswept palm tree and the perfectly imperfect shapes of woven palm leaves and fallen fronds. The warm antique gold finish and the intricate sculpted textures exude comfortable luxury and graciousness.

“I was having lunch with friends on a veranda overlooking the sea when I looked down to the lawn and saw a fallen palm frond. The leaves were all twisted and curled, yet it stood out magnificently against the otherwise perfect landscape. It made me think of the passage of time, and the bountiful gifts of the Palm tree, which provides everything from food to shelter.”

# POD

The Pod Collection interprets organic elements in hand-forged stainless steel. Aram's metal work is easily recognized by its nature-based motifs, but pieces from this collection are bolder and more modern than the more lyrical and representational work that Aram is typically known for. The use of stainless steel makes these pieces as functional as they are beautiful.

"I think of pods as nature's vessels, and was inspired to create organic forms evocative of nature, but re-imagined in a contemporary way."

# POMEGRANATE

The Pomegranate Collection takes its inspiration from one of the most universal and ancient symbols in the world. The fruit has been prized across the globe, across cultures and across time as a representation of life, rebirth, and renewal as well as fertility and union.

"I grew up around pomegranates - from their use as natural dyes on the antique rugs I used to crawl on as a baby to an integral ingredient in the food that I love. When I'm at my home in New Delhi, I wake each morning to the taste of fresh squeezed pomegranate juice. The color, the smell, the delicate flavor all make it feel like a magical elixir to me."

# RIPPLE EFFECT

Inspired by the cause and effect of the natural world, the Ripple Effect Collection celebrates the rhythm of nature. Handmade and modern in design, the pieces are perfect for everyday and bring a sense of calm and luxury into the home.

"I sculpted a piece years ago which had a concentric rippled surface. The piece haunted me with its simplicity and sense of connectedness to the natural world. I think events of nature such as raindrops falling on water, wind sweeping across sand, and ocean currents slowly smoothing a pebble mark our passage through time and make impressions, however fleeting, which gently leave a trace on the world."

# THORN

The Thorn Collection is inspired by the stem of a rose. Strikingly elegant, but treacherous to the touch, a rose thorn is symbolic of both passion and protection. As the pernicious thorns protect the delicate beauty of the bloom, we are reminded that everything beautiful, however determined, needs safeguarding.

“For me, these ‘Thorn’ pieces feel seductive and dangerous, while at the same time exude so much charm with a sense of fantasy. I love representing natural forms in my work which are often ignored or discarded.”

# TWIST

The Twist Collection is inspired by the idea that the whole can be far greater than the sum of its parts. When elements are combined, they take on another feeling, a greatness. Together, they are strong, but also I would argue, more beautiful. When lines are repeated, or wires woven, there is a loveliness to the pattern that fascinates and pleases. A symmetry is created that is calming and classical.

“I often explore materials and create collections which are craft based. Twist was created while experimenting with intertwining wires. There is a fluidity and movement to the twists that I love. The twisted wires suggest a coming together of things that I find poetic.”

# WHITE ORCHID

The White Orchid Collection illuminates the ethereal spirit of the orchid flower. Evocative of purity, delicacy, femininity and grace, the white metal version offers a strikingly different appeal than its black counterpart. While the sculpt is just as exuberant and detailed, in white, these flowers take on a simplicity that is completely unique. There is a sense of lightness, freshness and even innocence - each petal seemingly untouched and pure.

“Orchids naturally emit a sense of sensuality and seductiveness, but in white nickel they take on a completely different meaning - an element of brightness that I associate with new beginnings. When I think of white orchids, I imagine the purity and sweetness of a newborn child, or a newlywed couple at the beginning of their lifelong journey.”

# WILLOW

True to Aram's love of nature as a motif, the Willow Collection tells a story of perseverance and prosperity. Inspired by the transformative beauty of the Willow tree in late winter, the intertwining branches are decorated with silver buds, known for their resemblance to looking like tiny cat paws.

"The sight of Willows beginning to bloom always brought joy to me as a child. After long winters, I often found myself looking to the Willow's to bring news of springs looming warmth."

# WISTERIA GOLD

The Wisteria Gold Collection is inspired by the beauty of twisted and curving vines. Vines have been a favorite motif of Aram's over the years, since he sees them as a symbol of love and togetherness. As they grow, they loop together and separate, accommodating and allowing for whatever falls in their path. They gracefully intertwine while maintaining their own individuality.

"I think of vines as a symbol of love when I see how they grow together, with grace, strength, and vitality."

SPECIAL EDITION  
SCULPTURES

## Grass

A fragile, lowly, and trampled upon clump of grass is transformed and redefined in Michael's sculpture, 'Grass'. The scale of the piece forces you to look closely at the swaying forms and perfectly imperfect shapes. It invites you to think of our place in the world and to become small for just a moment in time.

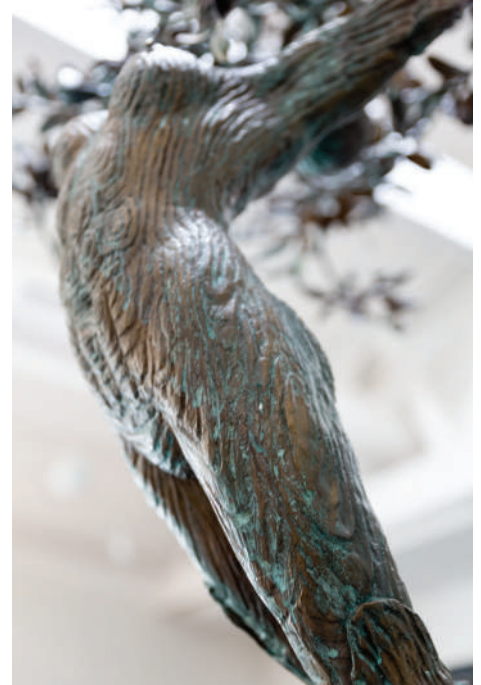

"Now, as an adult rolling down grassy hills with my nature-loving son, re-experiencing nature through his eyes, I found myself searching for meaning and metaphor. This moment in time inspired me to create this sculpture as a way to urge children and adults alike to think of grass in a new way - as one of many, perfect in form, independent, yet a family interconnected entries."

### Grass

176100 — (Limited Edition of 30), 54"L x 39"W x 144"H; Corten Steel

## Daphne

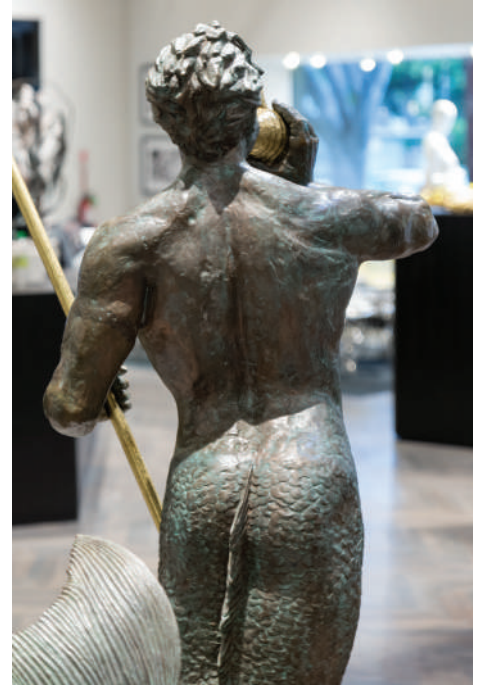

According to Greek mythology, Daphne's transformation from a river nymph into a laurel tree began as she escaped the advances of Apollo. Her arms extend into branches as she becomes one with the earth.

"I am obsessed with the idea of metamorphosis, particularly from human or animal form to plant form. For me, 'Daphne' embodies the connection of mankind to nature, and the idea of nature as protector."

### Daphne

176103 — (Limited Edition of 30), 55"L x 38"W x 98"H;  
Patinated Brass, Corten Steel

## Triton

Positioned as though he is at the crest of a wave, Triton powerfully blows on his conch shell as he holds his trident majestically. Half man, half fish, this merman is a Greek God, the messenger of the sea. The music of his shell calms the waves and creates the roar of the ocean. Triton's trident symbolizes the past, present, and future, a trinity which characterizes the diversity and expansiveness of his energy and the power of the sea itself.

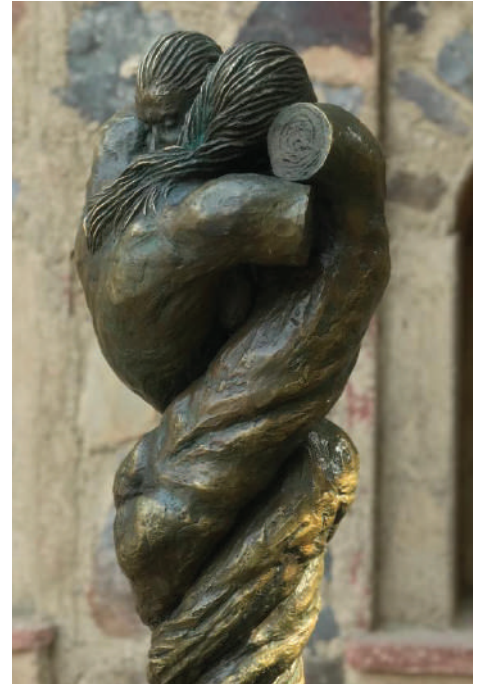

"My kids and I found a weathered conch shell on a beach, which was the model for the conch in this sculpture. I think of Triton as the guardian of the sea and dream of calm seas ahead for my family. His powerful trident navigates us safely into the future."

### Triton

176102 — (Limited Edition of 30), 36"L x 27"W x 80"H;  
Natural & Patinated Brass, Corten Steel

## Oneness

'Oneness' embodies the feeling of completeness. In this sculpture, Aram combines human and plant forms to signify the inexorable connection between man and nature. The vines rise from the earth, twisting and metamorphosing into two embracing humans, characterizing a sense of profound love and unification.

"For me, 'Oneness' encapsulates a sense of unity and connection for humanity and nature. It signifies the love and regard for ourselves and one another; characterizing the oldest and most profound known natural bond."

### Oneness

176101 — (Limited Edition of 30), 22"L x 22"W x 72.5"H; Patinated Brass, Corten Steel

## Dream

'Dream' takes its inspiration from a well-loved children's book that has special meaning in Michael's own life and home.

"This sculpture is probably the most personal of all for me. It is inspired by a children's book called 'Papa, Please Get the Moon For Me' by Eric Carle, which is a bedtime favorite in my house. In the story, a girl dreams of dancing with the moon and her father begins a wondrous journey to bring it down to her. It's a simple but magical story that reminds us all to dream... that in the world of our imagination, all things are possible. In my work, I chose to put a pillow and 'Piggy' (my son's favorite stuffed animal that he can't sleep without) in the bed, suggesting that, while dreaming the entire bed transforms into an immense ladder...tall enough to reach the moon."

### Dream

176106 — (Limited Edition of 30), 25"L x 23"W x 95"H;  
Natural & Oxidized Brass, 24K Gold Plate, Nickelplate,  
Copperplate, Stainless Steel

## MOON GATE SCULPTURES

The Moon Gates are inspired by traditional round passageways found in Chinese landscape architecture which act as entry and exit points to the garden. The circular elements are symbolic of the idea of completion, representing and celebrating the cohesiveness of the family, as members pass through the gate to return home. Another interpretation is that, as the moon, the opening is symbolic of the cycle of life, and renewal as the full moon marks wholeness and is suggestive of new beginnings.

"I love thinking of these sculptures as a portal into nature. By looking at the moon gate, I am reminded of the delicate balance between man and nature, and my need for connection between my home life and the beauty and abundance of nature."

# DINNERWARE

Re-defining modern entertaining in a way which is functional and elegant.

# THE “JOURNEY” OF PALACE

My inspiration and love for India, its people and its architecture, runs deep. My home in New Delhi is surrounded by ancient monuments, where many of the motifs in this pattern were found. India is a country of subtlety - light and shadow and extreme refinement. The Palace dinnerware is an homage to a country that is close to my heart.

Follow along, tracing the design of the pattern, as we walk the path of the palace.
