The Cube Cloche

“Minimal” Colors for Room Amenities

Cover for Safety
Uncover in Style

In contrast to existing offerings, “The Cube Cloche” will not disappoint guests who dislike disposables and expect style, safety and wonderment.

The cube shape allows for more space for food, especially for room amenity presentations. When removed, dome can be placed vertically

Compared to traditional room service metal covers which are associated with “old style” hospitality service, the Cube food cloche is infused with a modern Art Deco design sensibility.

Can be delivered in opaque colors for a unique uncovering experience (and a room decor item), as well as in transparent to protect but keep the food presentation visible. A truly modern and foodstagrammable, alternative to the “service under the bell” experience.

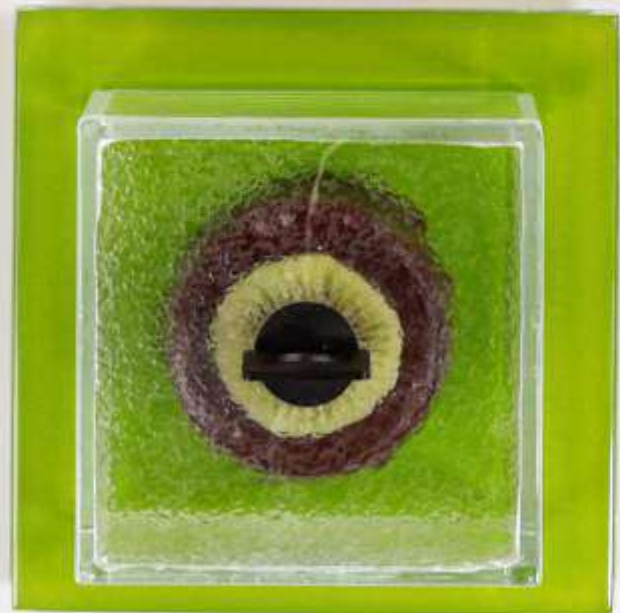

Our standard color selection is minimal and austere for Room Amenity presentations. Nevertheless, we will create bespoke colors to match the interior of the room.
