EXPERTS IN SEASONING SINCE 1919

ABOUT COLE & MASON

For over a century, Cole & Mason has been a trusted name in seasoning, crafting high-quality mills and shakers designed to enhance both the flavour and efficiency of professional environments. Our expertise in precision grinding mechanisms and durable materials ensures that our products meet the rigorous demands of the food service industry.

Designed for reliability in high-traffic environments, our mills deliver consistent seasoning, whether in the hands of chefs or at the table for diners. With easy refill systems, durable construction, and sleek designs that complement any setting, Cole & Mason offers the perfect balance of performance and style. From coarse sea salt to fine pepper, our mills and shakers guarantee the precision and control that food service professionals require to elevate every dish.

Choose Cole & Mason for seasoning solutions that are built to last, enhance flavour with every grind, and bring efficiency to professional kitchens worldwide.

ABOUT OUR MILL MECHANISMS

All of our premium pepper mills feature our patented carbon steel Precision+ mechanism, which was developed in conjunction with Nottingham University's Aroma Laboratory. Representing a new level of performance, our Precision+ mechanism is able to deliver more pepper per turn and is scientifically proven to release more flavour than ever before.

All of our premium salt mills feature a unique sharp ceramic mechanism which prevents corrosion over time unlike other salt mills that feature a metal mechanism. Our salt mills are intended for use with dry salt crystals only.

The designs of our mill mechanisms were created in-house by Cole & Mason and are IP protected to ensure no imitations. Furthermore, they are confidently supported by our Lifetime Guarantee.

COLOURED MILLS

Our coloured acrylic mills are perfect for food service settings, combining durability with a modern look. The sturdy acrylic construction withstands frequent use, while the vibrant colors can be used to distinguish between salt and pepper. Adjustable grinding mechanisms ensure precise seasoning for diverse culinary needs. Easy to clean and refill, they add a functional, stylish touch to any dining environment. Both salt and pepper mills are fitted with an ultra-sharp, anti-corrosion ceramic mechanism.

MIXED MATERIAL MILLS

Our mixed material mills are ideal for food service settings because they combine the durability of stainless steel with the clarity of acrylic, offering both strength and practicality. The combination of materials enhances both functionality and aesthetics, making them suitable for a variety of dining environments. Clear acrylic sections allow easy monitoring of fill levels, while sturdy components ensure long-lasting performance under heavy use. With adjustable grinding mechanisms for precise seasoning and an easy-to-clean design, these mills provide a versatile and stylish solution for busy kitchens and dining areas. Pepper mills are fitted with our design registered Precision+ carbon steel mechanism and salt mills are fitted with an ultra-sharp, anti-corrosion ceramic mechanism.

About our Grind Select Mills

Our premium range of grind select mills gives complete control with 6 pre-set grind levels for pepper and 3 pre-set grind levels for salt, to provide precise adjustment of the grind from fine to coarse. Select a fine grind for a big punch in sauces and soups or effortlessly switch to a coarse grind for a more subtle but longer lasting taste, great for salads or steaks.

ACRYLIC MILLS & SHAKERS

Acrylic mills and shakers are ideal for food service settings because they are durable, lightweight, and resistant to moisture and corrosion, making them perfect for high-traffic environments. Their clear design allows for easy identification and monitoring of fill levels, ensuring quick refills and efficient service. The smooth grinding and dispensing mechanisms provide consistent seasoning, while the non-reactive acrylic preserves the freshness of spices. Easy to clean and maintain, they offer a practical, stylish, and reliable solution for restaurants, cafés, and catering services. Pepper mills are fitted with our design registered Precision+ carbon steel mechanism and salt mills are fitted with an ultra-sharp, anti-corrosion ceramic mechanism unless stated otherwise.
