COLLEZIONE 2022

Technology and tradition passed down through generations;
work, perseverance and passion for fine products.
A big family, a big dream and a factory...
this is where our projects begin.

Rivadossi Sandro & C. nait dans les années 60 en tant que fabricant d'articles de la table, obtenant un succès immédiat avec ses premiers modèles de couverts avec des manches en plastique colorée conçu avec sa propre créativité.

Le boom économique des années 80 et 90 grâce à des essais réussis de nouveaux matériaux et les heureuses collaborations avec les meilleurs designer, a permis une croissance importante de la production et commerciale.

Au cours de la dernière décennie, la société a maintenu son leadership international dans ce secteur et une croissance dans des nouveaux marchés, principalement en raison de sa sensibilité aux tendances de la mode et anticipant le choix de couleurs qui influent sur les habitudes de consommation quotidienne.

The Rivadossi Sandro & C. company was established in the 60's producing household and table setting articles; being successfully since the beginning with the production of the first models of cutlery with colored handles manufactured following our own design.

Enthusiasm and satisfaction have characterized our company during the period of the economic boom: in fact, in the 80's and the 90's both the successful experiments of new materials and good cooperation with the best designers allowed an extraordinary productive and commercial growth.

During the last ten years we focused above all on colors and fashion trends which inevitably influenced the consumers' purchasing habits; in these years only the deep knowledge of the cutlery market allowed the Rivadossi Sandro & C. company to maintain its international leadership in this field and to grow further towards new markets, keeping the family-run business unaltered in ownership and management.

L'AZIENDA

Rivadossi Sandro & C. nasce negli anni '60 come azienda produttrice di articoli casalinghi e per la tavola, ottenendo da subito successo con i primi modelli di posata con manicatura colorata realizzati su disegno proprio.

Il boom economico degli anni '80 e '90 grazie alle riuscite sperimentazioni di nuovi materiali ed alle felici collaborazioni con i migliori designer, permettono una formidabile crescita dimensionale produttiva e commerciale.

Nell'ultimo decennio, la azienda ha mantenuto la leadership internazionale nel settore ed è cresciuta verso nuovi mercati, grazie soprattutto alla sensibilità verso le tendenze della moda e anticipando sempre le scelte dei colori che influenzano le abitudini di consumo quotidiane.
