WHAT'S NEW FOR SPRING SUMMER 2024

Two new designs for this spring-summer season!

The first, 'fruit', gave us a hard time.

We've been dreaming about fruit on our plates... Well, it's done!

It took many hours of work for the artisans to get off the beaten track of oriental motifs.

It took many steps to make this new 'fruit' pattern perfect.

At first it was just fruit. Then leaves made their appearance...

The edges with small dots, a Chabi signature.

These leaves were so pretty and refined...

A new pattern was born!

And surprise, surprise: it mixes perfectly with all our existing colours and patterns!

Then it was impossible to be satisfied with just plates!

Jugs, mugs, tins... dozens more references to delight us!

*The long-awaited
pasta plate*

*A smaller format
soup plate*

*a plate with a edge
for your dishes with sauce*

*A new, practical shape for
conical bowls and salad bowls*

A new small jug format

3 sizes of low salad bowls for your summer salads

*the mug family expands
with this new little mug*

*A new color paille
for our "fleurs" print*

*Small pedestal candleholders,
an elegant way to add height
height to your tables*

*3 new sizes of candles in new scents:
citrus gardens, mystic amber, pomegranate, lemon verbena.*
