NEED INSPIRATION FOR SETTING THE PERFECT TABLE?

CLICK, MIX AND MATCH WITH THE
3D TABLE SETTING CONFIGURATOR!

Setting the perfect table is a time-consuming process: requesting samples, trying out different combinations, giving it a careful consideration, requesting other samples and so on. Fortunately, that is no longer necessary with the Stylepoint 3D Table Setting Configurator! Scan the QR code and you select items of your choice easier, faster and better!

3D TABLE
SETTING
CONFIGURATOR

Augmented reality (AR)

Check out the table setting you've created in your own environment with the AR function! To use the AR function, first select the white background and then click the AR button.

Quick next steps

With the 3D Table Setting Configurator you immediately get a complete picture of the table in its environment. Would you then like to request a quote by e-mail? The configurator can generate an overview of the selected items with a photo of the combination. This overview is also useful when you want to request additional product information or place an order.

Sharing is easy

Would you like to consult with a colleague or account manager? The overview can be shared with any device: tablet, PC and smartphone. E-mailing the overview is one option for that. The second option is that you share a link from the 3D Table Setting Configurator via, for example, WhatsApp. It couldn't be easier!

Available 24/7

In the morning or at night? Whenever it suits you, you can browse through this catalogue. See an interesting collection? Just scan the QR code on that page and it will open the 3D Table Setting Configurator with items of that collection. Now you can start mixing and matching until you have the perfect table!

Mix and match

In the 3D Table Setting Configurator you can place plates, bowls, cutlery and glasses on the different tables: black marble, wooden or table linen. You can filter on different criteria: colour, brand, material and characteristics. In addition, you can choose between a darker and a lighter environment.

DESIGN BY

The next level in top dining experience

DESIGN BY is the premium dinnerware collection of Stylepoint. It gives chefs from around the world access to exquisite and special designer tableware.

There are ceramic designers all over the world who create the most unique products in their studios. Usually these designers produce on a smaller scale. In collaboration with international ceramic designers, Stylepoint developed a unique and exclusive line of tableware for the premium hospitality segment. This way, exclusive designs are now available in bigger quantities.

The story behind RBC

RBC perceives design as an expression to communicate the story behind our uniquely handcrafted approach to transform humble stoneware clay into novelty tableware. Our philosophy is that all of our ceramics have to reflect true passion for design and to be different. We have been working with some of the best Michelin starred chefs and top hotels from around the world for the past 29 years.

We understand that chefs want to have something different for presenting their creations and to keep exploring their creativity beyond the boundaries of normative food presentation. This idea of bringing the food industry to the next level is boldly underlined in our new collection that we have designed.

The story behind Kevala

Kevala produces handmade ceramic stoneware. Each piece is crafted as a thoughtful statement of contemporary design, realized through the heart and hands of their skilled artisans. Kevala is Sanskrit, meaning perfect, whole, and complete. And it's this simple idea that dictates the design philosophy behind all the ceramics this studio produces. Kevala designs specifically for high-end restaurants, the individual pieces can be tailored to meet specific presentation needs.

Kevala allows chefs to bring their creativity to the way they serve their delicious culinary creations.

Wendy: 'We have been making handcrafted ceramics for some of the world's top restaurants for the past 25 years. We understand that chefs want understated designs that showcase their culinary creations – where the food is the star, not the serving plate.'

WARNING!

The plates have a volcanic glaze. Piling, bumping or hard pressure of objects can possibly result in the release of volcanic glaze flakes. Always check before use whether the plates are free of flakes. Due to possible health risks, these flakes are not fit for human consumption. Volcanic glazing is purely decorative and is not meant to be eaten from or to cut on its surface. Do not serve meals on the surface on which the volcanic glazing is. Washing and cleaning of these plates should ideally be done in an industrial dish washing machine.

Studio RAW

Discover our exclusive tableware and cutlery collections. The high-end design of the cutlery matches perfectly with our Studio RAW ceramics. The cutlery items are of heavy 18/10 quality and most of them have a durable PVD coating. Because of this they are better protected against corrosion. Also, the colours will stay beautiful. Some items even have an exclusive two-tone finishing.

Set the perfect table with our exclusive tableware and cutlery collection!
