

# Flatware

La Tavola reflects the passion of Giulio and Sergio Sambonet, brothers and founders who share an unending desire to create art for the table.

With the support of an experienced, expert and equally enthusiastic team, they are proud to present new flatware patterns in stainless steel, silver-plated and titanium and PVD coated finishes.

The patterns of this collection have been designed by La Tavola R&D Team under the supervision of Giulio and Sergio Sambonet.

Those personally designed by them are identified by the trademarks:

The image is a two-page spread from a catalog. The left page has a white background. On the far left, there is a large, thin line drawing of a spoon. To its right, the word "FLATWARE" is printed in a small, sans-serif font. Further right, there is a photograph of a set of cutlery: a fork, a knife, and two spoons, arranged in a slightly overlapping row. Above this photograph, the phrase "Sounds of modern living" is written in a cursive, handwritten-style font. On the handle of the spoon in the photograph, the brand name "la tavola" is visible. At the bottom of the left page, the word "Lounge" is written in a very large, bold, black sans-serif font. Below "Lounge", the text "cod. 12" is printed in a small font. The right page features a close-up photograph of a knife and a fork. Both pieces have a modern, curved handle design. The knife is positioned diagonally from the top left towards the bottom right, and the fork is positioned diagonally from the bottom left towards the top right. The background is a solid, light blue color. In the top right corner of the right page, the brand name "la tavola" is printed in a small, bold, sans-serif font.

# Rétro by La Tavola

The newest addition to the La Tavola flatware family is Rétro, the key to designing a tabletop ambiance with a touch of retro style that is warm and inviting for guests.

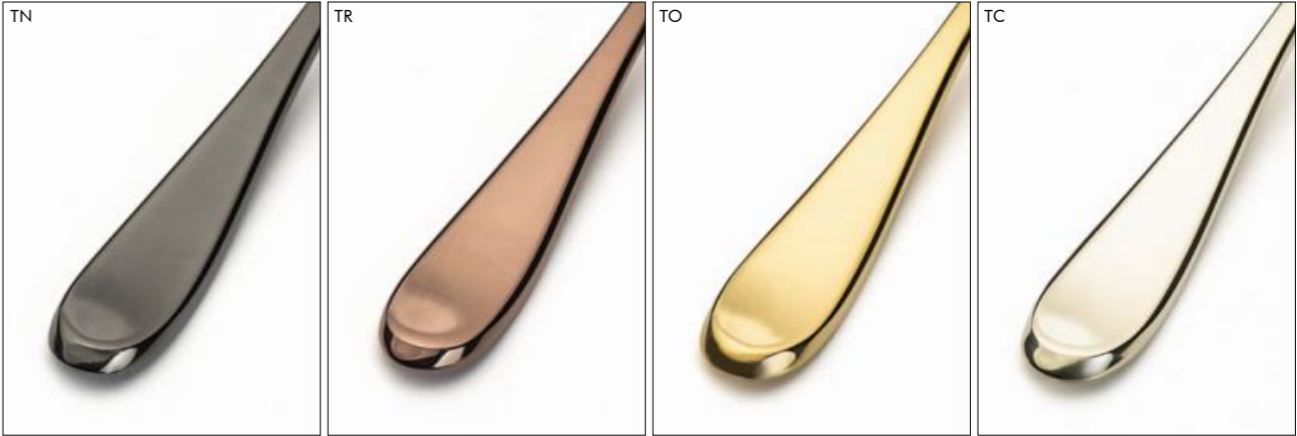

In addition to stainless steel, Rétro is also available in our three signature titanium and PVD finishes - Gold, Venetian Gold and Platinum Champagne.

● 18 / 10 st. st. (Mirror finish)      ● 18 / 10 st. st. (Satin finish)\*  
\*Only the handle is satin finished      ● 18 / 10 st. st. (Brush finish)

● 18 / 10 st. st. (Rétro finish)      ● Silverplated (Mirror finish)      ● Silverplated (Satin finish)

● Black titanium (Mirror finish)      ● Venetian gold (Mirror finish)      ● Gold (Mirror finish)      ● Platinum champagne (Mirror finish)

● Venetian gold (Rétro finish)      ● Gold (Rétro finish)      ● Platinum champagne (Rétro finish)

# Finishings and materials

Made of durable and top-quality stainless steel, the flatware collections designed by La Tavola are naturally crafted for lasting. Creating beautiful pieces of cutlery is an art, and we have been doing it for generations: choosing our flatware means relying on our expertise.

The signature stainless steel flatware collections by La Tavola come in Mirror, Brush and Satin finish: three simple twists that effortlessly add value to each line. To satisfy the search for a sophisticated yet timeless allure, we keep providing customers with classic Silver-plated pieces of cutlery available in Satin finish or plain mirror finish.

Communicate your style and firm personality with the Titanium and PVD coating applied on our flatware lines: Gold for a bold presentation, Black for a detail-oriented style, Venetian Gold for everlasting romance and Platinum Champagne for unprecedented elegance. A touch of uniqueness that won't remain unnoticed.

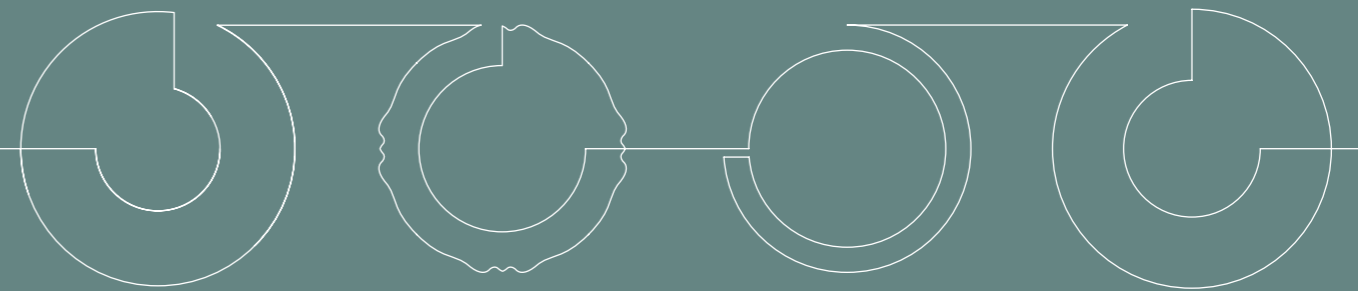

Our quality Rétro finish is the vintage detail that will turn any room into a cozy place to be: old but gold. A polished European-style cutlery that won't cease to amaze; have them Titanium and PVD coated in Venetian Gold, Platinum Champagne, Gold or classic stainless steel.

# Bone China & Porcelain

The exotic flavours and traditions of the East meet the modern presentation of the West to create a single culinary and cultural experience.

Introducing tableware that simultaneously embraces the traditional and the contemporary. Perfect for those who wish to present their own fresh ideas.

A tribute to both style and substance.

## BONE CHINA TRANSLUCENT APPEAL

Our bone china is composed up of 45% bone ash, 35% kaolin and 20% feldspar.

The result is a delicate ivory colouring with a unique lightness and transparency, yet it manages to be both beautiful and durable, unusual and traditional.

# Market Elevation System

The Market Elevation System is a simple tool that allows for the creation of a functional and stunning buffet presentation

4 different heights, smoked or clear glass pieces to create junctions, neutral or hot/cold tops to hold any type of food.

The main material used is HPL, a very durable, eco-friendly and hygienic material.

**MINERAL FINISHES**  
The Mineral Risers collection offers a variety of stylish and elegant finishes - discover the stunning combinations.  
A collection that is sure to make a statement.

# Low-Impact Products

La Tavola’s Organic and Mineral Risers have the added benefit of being made from a specially-formulated co-polyester resin that combines performance with environmental responsibility. Eco-resin incorporates 40% pre-consumer recycled content without compromising aesthetics or overall physical properties, is compatible with one of the largest post-consumer recycling streams, and is GREENGUARD® Indoor Air Quality and Breeam Certified.

Our products bring to life hand-crafted materials from artisans around the world. La Tavola uses beautiful indigenous products customized for the production of the Riser’s panels, encouraging the development of a sustainable market for the artisans and the communities to which they belong.

**These materials are encapsulated in the Organic and Mineral Risers, creating modern design aesthetics.**

The warranty does not include damages resulting from misuse, abuse, wear tear or incorrect maintenance.

CARE AND MAINTENANCE

(Sorted by product category/material)

Freestanding buffetware, Action Stations and banqueting furniture

- » Stainless steel parts: Wash the items with hot water and neutral detergents on a soft cloth (do not use detergent containing chlorine and/or alkaline cleaners). Dry the items thoroughly and store them in a dry place. Never use any type of scarper or steel wool which will scratch the surface of the items. The items must be washed as soon as possible after use to avoid any prolonged contact with food remnants. Do not wash in the dishwasher.
- » PETG elements (transparent covers): Wash the items with water and neutral detergents on a soft cloth (do not use detergent containing chlorine and/or alkaline cleaners). Never use any type of scarper or steel wool which will scratch the surface of the items. Do not wash in the dishwasher.
- » High Pressure Laminates (HPL): wash HPL items with water and neutral detergents on a soft cloth. Never use any type of scarper or steel wool which will scratch the surface of the items. Do not wash in the dishwasher.
- » Organic & Mineral Risers: Ecoresin, like all thermoplastic resin materials, should be cleaned periodically a regular, seasonal cleaning program will dramatically help prevent noticeable weathering and dirt build up. Rinse the sheets with lukewarm water (be careful not to expose edges of organic or fabric interlayers to water) remove dust and dirt from the risers with a soft cloth or sponge and a solution of mild soap and/or liquid detergent in water. Rinse thoroughly with lukewarm water. Never use scrapers or squeegees. Keep edges dry and free of liquids. Do not rub with a dry cloth. Because the materials used are organic in nature (i.e leaves, branches and twigs) it is natural for them to alter slightly in appearance over time. Natural materials are also subject to inherent inconsistency in color, texture and shape. Slight delamination on saw cut edges is also to be expected.

Flatware

- » Stainless steel: Wash the items in hot water and neutral washing detergent after each use. Do not use detergents containing chlorine and/or alkali cleaners, then dry thoroughly the items and store them in a dry room. Never use any type of scraper or steel wool which will scratch the surface of the items. Any food remains should be thoroughly cleaned up. The items must be washed as soon as possible after use. When washing in a dishwasher of make sure that at the end of the cycle the items come out perfectly dry otherwise wipe them thoroughly by hand. The above recommendations are particularly meant for the care of the blades, which are made of Aisi 420 stainless steel. This type of stainless steel is the most suitable to ensure a long-lasting cutting edge to the blades, but it is less resistant to the corrosion than the 18-10 (Aisi 304) stainless steel type, which is used to manufacture the forks, the spoons and the handles of the hollow handle knives.
- » Silver-plated: The same maintenance instructions of the stainless-steel ware apply. The silver coating can oxidize due to the contact with certain types of food and in very humid climates. This process is not a defect and it is not a sign of damage, but it is a natural characteristic which only alters the color of the surface, initially to yellowish and eventually to brown. Oxidation can be quickly removed with a common silver polishing product, either in form of paste or of liquid solution. In the latter case, it must be taken the precaution of avoiding a prolonged contact of the solution with the stainless-steel blades as they could be affected by corrosion. The items must be removed from the dishwasher as soon as the cycle is completed and wiped dry with a soft cloth, even if they seem dry. The period pf time that the items are exposed to hot steam and the hydrochloric acidity created within the dishwasher, therefore items should be removed as soon as possible from the dishwasher after the end of the washing cycle.
- » PVD and Titanium Coated: In case of appearance of dark spots (caused by organic substances and/or calcium deposits due to an inadequate washing /drying cycle), remove them by simply wiping off the surfaces with a soft cloth soaked with lemon soap or vinegar. If the lemon soap or the vinegar are not sufficient to remove particularly resistant spots, then (and only in that case) use a soft cloth soaked with a liquid metal polisher. We recommend using "Sidel" by Henkel, but most probably any kind of liquid metal polisher is as good as "Sidel". Avoid polishing the surfaces with abrasive cloth or metal polishing paste. Never use scrubbing sponges. PVD coated flatware does not tarnish, and does not require any special maintenance otherwise. In order to delay as much as possible the incurrence of visible wear and tear, handle with as much care as possible during the washing cycle. Wash and store the knives separately from the forks and the spoon.

CERTIFICATION

La Tavola is proud to announce that have obtained the ISO 9001:2015 certification.

- » Considering customers as the company’s most important asset

In order to achieve these goals and aim for constant, long-term improvement, La Tavola has decided to challenge ourselves and embark on the path towards ISO 9001:2015 certification.

ISO 9001 certification is a worldwide standard that establishes the requirements for a solid Quality Management System. It details the specific processes, procedures and activities that organisations must create, implement, maintain and improve to successfully manage the manufacture of products or delivery of services.

ISO 9001:2015 specifies the requirements for a quality management system when an organisation:

Must demonstrate its ability to consistently provide products and services that satisfy customers and applicable regulatory and legal requirements,

Aims to improve customer satisfaction through effective implementation of the system, including system improvement processes and ensuring compliance with customer and applicable regulatory and legal requirements.

La Tavola has successfully demonstrated its eligibility for certification and is committed to continuous improvement of its products and services to achieve maximum customer satisfaction.
