VIV the Brand

VIV is an innovative and vibrant outdoor tableware brand that redefines alfresco dining by harmoniously blending striking design with practical functionality.

Crafted with passion and thoughtfully designed, each piece reflects meticulous attention to shape and texture, bringing an elegant, nature-inspired touch to your table.

Designed to Last, each piece is engineered from advanced, impact-resistant materials, ensuring exceptional endurance and a longer lifecycle. Each creation beautifully marries the visual allure of real glass and ceramics, creating a luxurious experience that doesn't compromise on practicality.

Choosing VIV means embracing a lifestyle that celebrates food, nature, and meaningful connections under the open sky. It's a brand for discerning individuals who appreciate style, quality, and the finer things in life.

A Brand Tailored for:

RESORTS

BOATS

PLANES

CLUBS

POOLS

OUTDOOR

ROOFTOPS

the vision

A passion for quality, design, and the joy of gathering outdoors.

VIV was created to embrace the joy, positivity, and serenity of the outdoors, enhancing everyday life. Our mission is to capture and elevate these feelings through thoughtfully designed outdoor tableware that complements the natural beauty around us, allowing for deeper immersion in outdoor experiences.

Born from the collaboration of a dynamic duo, VIV brings together unique expertise to inspire professionals in crafting extraordinary outdoor dining experiences.

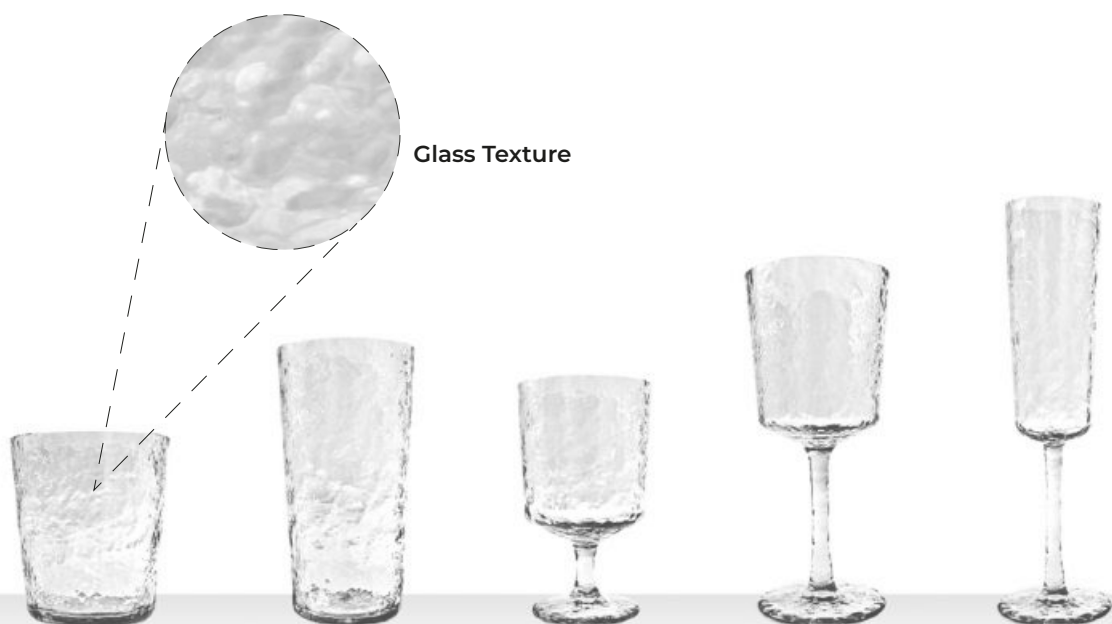

Caustics

The Caustics outdoor glasses collection, crafted from ecozen materials, embodies a harmonious blend of sustainability and style.

Inspired by the mesmerizing play of light beneath the ocean's surface, the design echoes the organic, wavy patterns of refracted light - those fleeting, dancing shapes that ripple across the sand under the sea.

Holding a drink in one of these glasses feels like an experience in itself. The smooth, lightweight material feels comfortable in your hand, while the elegant contours enhance the visual appeal of your beverage. As you take a sip, the glass not only showcases the vibrant colors of your drink but also reflects the natural light around you, creating a captivating play of shadows and highlights.
