Michael Aram is an internationally recognized designer who creates luxurious objects to enhance the everyday. While the business of Michael Aram has grown exponentially over the decades, Michael Aram the artist and inveterate entrepreneur is still personally behind every design that bears his name. Each piece represents a celebration of the hand - from the original drawing Michael creates at its inception, to the masterful artisans who give it life. Each is made one at a time, so no two are exactly alike, but all are imbued with a vibrancy that engages the senses and sparks both contemplation and conversation.

"There is a tremendous reflection of our own humanity in handmade objects. When you make things by hand, somehow that energy, that tension, that passion, all gets absorbed into the object. Objects are powerful. They trace history, trace our passage through time, they capture memories for generations." ~ Michael Aram
